The American Sheriff:

The American Sheriff David Struckhoff, 2003 **The American Sheriff** David Raymond Struckhoff, 1994 **The American Police Novel** Leroy Lad Panek, 2015-09-17

The American police novel emerged soon after World War II and by the end of the century it was one of the most important forms of American crime fiction. The vogue for either Holmesian genius or the plucky amateur detective dominated mystery fiction until mid-century; the police hero offered a way to make the traditional mystery story contemporary. The police novel reflects sociology and history and addresses issues tied to the police force such as corruption, management, and brutality. Since the police novel reflects current events, the changing natures of crime, court procedures, and legislation have an impact on its plots and messages. An examination of the police novel covers both the evolution of a genre of fiction and American culture in general. This work traces the emergence of the police officer as hero and the police novel as a significant popular genre from the cameo appearances of police in detective novels of the 1930s and 1940s through the serial killer and forensic novels of the 1990s. It follows the ways in which professional writers and police officers turned writers view the police individually and collectively. The work chronicles the ways in which changes in the law and society have affected the actions of the police and shows how the protagonists of police novels have changed in gender, race, nationality, sexual orientation, and age over the years. The major writers examined begin with Julian Hawthorne in the nineteenth century and include such writers as S. S. Van Dine, Ellery Queen, Erle Stanley Gardner, Ed McBain, Chester Himes, MacKinley Kantor, Hillary Waugh, Dorothy Uhnak, Joseph Wambaugh, Bob Leuci, W. E. B. Griffin, and Carol O'Connor.

The American Decisions, 1887 Managing Policy and Reform in an Era of American Police Conflict Jack St. Hilaire, 2023-08-11

The Greek philosopher Socrates posed a guardian model that would protect his Athenian world; the custodes watchmen yet mused who would guard them but themselves. In *The Republic*, Plato spoke favorably about the guardians of the republic; they should be trusted to behave and perform their duties appropriately without oversight. Half a millennium later, the Roman satirist Juvenal proposed that men who feared their wives' infidelity could neither trust them nor the guardians who guarded them. Similarly, James Madison opposed oppression through blind trust and thus conceptualized Madisonian Democracy: *Quis custodiet ipsos custodies*. Who will guard the guardians? In an era of conflict with America's police and the communities they serve today, publicly expressed attitudes toward law enforcement often reflect Socrates' dilemma and the concerns of Juvenal more than that of Plato's tributes. Contemporary debates concerning the increase in violent crime and the need for fundamental changes to American policing reached a new intensity and stalemate with the death of George Floyd in Minneapolis in May 2020. Police officers shot and killed 999 people in 2019 and 1021 people in 2020 in the United States. 2020 was also one of the deadliest years for law enforcement, with 264 officers killed, the highest since 1974. In the first six months of 2021, 523 civilians were shot and killed by officers. Numerous active and former police officers face criminal charges for the January 6 United States Capitol Attack in Washington, DC, in 2021. Many current and former

employees of the U S Border Patrol were discovered to be members of a Facebook group that posted racist and anti immigration content Sixty current members were found to have committed misconduct by posting explicit and violent messages mocking migrants and threatening lawmakers on the site Communities are now hiring civilians to high positions in the police department s command staff justifying the need to improve deteriorating community relations For the first time in its 27 years of measuring confidence in the police in the United States Gallup found that most American adults do not trust law enforcement This book investigates and exposes the complex challenges facing law enforcement leaders and government officials with police reform policies and standards police accreditation and police legitimacy in the eyes of the community Through informative and educational discussions with law enforcement leaders from various agencies professional police organizations and academic researchers the book qualitatively evaluates individual autonomy organizational culture and political environments which influence strategic decisions made on policy and reform efforts by law enforcement officials in the United States within the milieu of national police accreditation
