The Anatomy Of Capitalist Societies:

The Anatomy of Capitalist Societies John Urry,1981 Mostly discussed in terms of contributions from Marxist writing and debate Organizing the 1% William K. Carroll,J.P. Sapinski,2018-12-06T00:00:00Z Canada is ruled by an organized minority of the 1% a class of corporate owners managers and bankers who amass wealth by controlling the large corporations at the core of the economy But corporate power also reaches into civil society and politics in many ways that greatly constrain democracy In *Organizing the 1%* William K Carroll and J P Sapinski provide a unique evidence based perspective on corporate power in Canada and illustrate the various ways it directs and shapes economic political and cultural life A highly accessible introduction to Marxist political economy Carroll and Sapinski delve into the capitalist economic system at the root of corporate wealth and power and analyze the ways the capitalist class dominates over contemporary Canadian society The authors illustrate how corporate power perpetuates inequality and injustice They follow the development of corporate power through Canadian history from its roots in settler colonialism and the dispossession of Indigenous peoples from their land to the concentration of capital into giant corporations in the late nineteenth century More recently capitalist globalization and the consolidation of a market driven neoliberal regime have dramatically enhanced corporate power while exacerbating social and economic inequalities The result is our current oligarchic order where power is concentrated in a few corporations that are controlled by the super wealthy and organized into a cohesive corporate elite Finally Carroll and Sapinski offer possibilities for placing corporate power where it actually belongs in the dustbin of history

The Dialectic of Capital (2 Vols.) Thomas Sekine,2020-07-13 This is the first book written in English that tries to expose the thing in itself or inner logic of capitalism in a form homomorphic to Hegel's Logic following the method previously established in Japan by K z Uno 1987 1977 Neither bourgeois liberal nor even conventionally Marxist economics possess a logical hence objective knowledge of capitalism as such which is regrettable The manuscript of this book was completed in typescript at York University Canada in 1983 then privately published in that form by the author in about 500 copies which are by now virtually dispersed In order however to re launch economics as objective knowledge when the world must prepare itself to correctly terminate capitalism we need to rediscover a book of this kind as a dependable guide

The Development Trajectory of Eastern Societies and the Theories and Practices of Socialism Zhao Jiaxiang,2022-07-30

In the four volumes of *The Development Trajectory of Eastern societies and the Theories and Practices of Socialism* the author re examines Marx and Engels theories on the development trajectory of Eastern societies by integrating theoretical analysis of Marxist theories and an historical investigation of socialist revolution and socialist construction around the world The collection challenges some predominant interpretations of Marx and Engels historical materialism by focusing on that materialism explaining the general laws of historical development and its particular trajectory in Eastern societies discussing the attempts of the Russian Commune to avoid the torments of the capitalist system and tracing the victories and failures of

the 100 year trajectory of socialism The significance of Marx and Engels socialist theories for contemporary social development in the Eastern societies is henceforth laid bare The book will be a key reference for readers studying Marxism Marxist philosophy and the history of philosophy **The Poverty of Planning** Benno Engels,2021-01-15 Using a neo Marxian perspective Benno Engels examines the absence of urban planning in nineteenth century England In his analysis of urbanization in England Engels considers the influences of property owners inheritance laws local government structures fiscal crises of the local and central state shifts in voter sentiments fluctuating economic conditions and class based pressure group activity *Phases of Capitalist Development* Richard Westra,Alan Zuege,2001-03-27 In this collection authors from eight different countries representing a wide variety of academic disciplines and theoretical perspectives investigate the differing phases of capitalist development They offer diverse and powerful analyses of the postwar boom economic crises and globalization within this context

The Philosophy of Capital Haifeng YANG,2023-11-30 This book attempts to reveal Karl Marx's philosophical critique of the social being in capitalist societies from the text of Capital Marxists different understandings of Capital in different historical periods reveal the rich meaning of Capital which plays an important role in promoting Marxian philosophy These different modes of interpretation also mean that the understanding of Capital is endless because re reading of Capital will always open up a new realm for the interpretation of Marxian philosophy Since the financial crisis in 2008 Capital has once again become a hot topic in academic fields However in these new interpretations there is no fundamental breakthrough in the illustration of Marx's thought because some either stick to the discussions in pure economic fields some the revision of Marx's manuscripts from the perspective of literature compilation others the role of Engels edition The popularity of Capital mainly stays in a certain emotion and in the internal requirements of critical reflection on capitalist society

Economics, Science and Capitalism Richard Westra,2021-12-19 Various strains of heterodox economics have sought and largely failed to dismount orthodoxy from its dominant position This book critiques the critics explaining why heterodox economics challenges have faltered and then presents a coherent alternative paradigm of its own This simultaneously exposes the vacuousness of neoclassical economics the limitations of heterodox critique and the subverting of Karl Marx's revolutionary economic thought by his own disciples The book draws in particular on two key intellectual traditions in making its arguments critical realism and Marxism From the refounding of critical realist philosophy of science in the hands of Roy Bhaskar emphasis is placed upon the position that the ontological nature of the object of study determines the form of its possible science However in their theoretical constructions neither orthodox economics nor heterodox economics problematizes the unique ontology of capitalism to the detriment of knowledge about the social world The book maintains that a century of misthinking over Marx's corpus has resulted in a missed opportunity to construct a paradigmatic alternative to orthodox economics Drawing upon the tradition of the Japanese Uno approach to Marxism and supported by Bhaskar's development of critical realism as underlaborer for science the book defends Marx's writing in his

monumental Capital as founding an economic science adequate to its ontological object of study It then elaborates upon how Marxian economic theory exposes the hidden scourges of capitalism and what is required to unleash the potential of this theory for comprehensive analysis of capitalist vicissitudes the study of economic life in precapitalist societies and the design of a desperately needed postcapitalist social order Broadening its appeal as it sets out to reclaim Marx's revolutionary legacy this original volume critically traverses writings in mainstream and heterodox economics cutting edge philosophy of science and Marxian political economy and introduces readers to a reconstruction of Marx's Capital engineered in Japan This provocative book is essential reading for everyone interested in heterodox economics critical realism Marxian economics and critiques of capitalism

Science & Society Bernhard Joseph Stern,1983 Includes section Book reviews **Environment and Planning** ,1993 International interdisciplinary journal discussing the relations between Society and Space Space is broadly conceived from landscapes of the body to global geographies from cyberspace to old growth forests as metaphorical and material as theoretical construct and empirical fact Covers both practical politics and the abstractions of social theory

Dilemmas and Contradictions in Social Theory Llewellyn G. Watson,1987-11-13 The original essays in social theory contained in this book offer a critical analysis and interpretation of a series of substantive social issues that are experienced in modern capitalist societies The book offers a clear conceptual framework derived from critical theory with which people living in capitalist societies can begin to make sense of the structural contradictions and seemingly natural forces that shape their lives

Capitalist Society and Modern Sociology Henryk Frankel,1970 **Society and Change** ,1987 *The Plebs* ,1914 **The "Plebs" Magazine** ,1914 **The Terms of Trade** Christopher Douglas Merrett,1994 **Total Capitalism** Colin Leys,2008 Containing three essays this volume is a critical analysis of modern democracy and capitalism The collected works challenge the current system addressing the disappearance of development as a collective goal the tailoring of political decisions to the public's perception and the loss of social solidarity under market driven capitalism Radical Philosophy ,1993 Environment & Planning ,1985 **Humanity & Society** ,2003
