Robert Michael Citino

The Arab World In The 20th Century:

The Arab World in the 20th Century Tom Little,1972 Traces the history of the Arab world with emphasis on recent history and such developments as the Arab Israeli problem the effect of Nasser's death and the influence of Russia **The International Who's who of the Arab World** ,1987 Atlas of the Arab World and the Middle East Djambatan (Firm : Amsterdam, Netherlands),1960 **The Best Books for Academic Libraries: World history** ,2002 Books recommended for undergraduate and college libraries listed by Library of Congress Classification Numbers **Record of the Arab World** ,1973 **The Rise and Fall of the Arab Empire and the Founding of Western Pre-eminence** Rodney Collomb,2006 Describes the conditions social economic and climactic rise and fall of the several culturally fettered Arab empires of the Middle Ages and the rise of the freer West to pre eminence This book explains the spiritual and cultural divide between the Arabs and the West and how they distanced themselves from the West and declined into a dark age The Arab World ,1961 **Subject Catalog, 1979** Library of Congress,1979 **Youth and Youth Culture in the Contemporary Middle East** Jørgen Bæk Simonsen,2005 As the analytical concept of youth gained importance and was generally accepted as a period with its own cultural values and norms social scientists began to analyze how social change was linked to youth In the Middle East a new concept of youth already began to find its way into the region in the late 19th century and played a role in the anti colonialist struggle The same concept still plays a leading role today in the way young people act in relation to traditional values political systems and the West In the Arab world in general some 50% of the total population is 18 years of age or below which means that youth as a social group is of growing importance in the area This also means that for decades to come Middle Eastern governments will be challenged as their young citizens demand work a place to live and access to enjoyable and challenging activities for the ever expanding leisure time embedded in a modern way of life Drawing on extensive research which covers a wide geographical area this volume includes among others articles on Youth History and Change in the Modern Arab World The Discovery of Adolescence in the Middle East Discovering the Other Arab Jewish Youth Encounters in Arab Films Youth Moral and Islamism Spending Leisure Time with Hamas in Palestine The Construction of Youth in Public Discourse in Turkey A Generational Approach and Youth Culture and Official State Discourse in Iran Youth and Youth Cultures in the Contemporary Middle East is a comprehensive work which describes and analyzes the forms of youth culture presently being exposed throughout the contemporary Middle East It will appeal not only to scholars but also to those with a general interest in Middle Eastern culture **Middle East** ,2006-04 The World and Its Peoples: Middle East ,1970 **Minorities in the Middle East: 1941-1949** Bejtullah D. Destani,2006 **News from Within** ,1997

Forthcoming Books Rose Arny,1997 *Politics of the Modern Arab World* Laleh Khalili,2009 This four volume collection of cutting edge and canonical scholarship counters the oft cited opinion that studies of Middle Eastern politics are devoid of social scientific theory and method by providing an overview of the state of the scholarship in the field innovations

therein and the debates that have advanced knowledge in the field The collection covers the Arab world from Morocco to the borders of Iran with the focus primarily on the twentieth century and especially the post Second World War era By choosing a wide array of authors many of whom are from the region or from the non Anglophone world the full breadth of worldwide scholarship on the modern Arab world is on display The collection defines politics broadly in line with the most innovative current works in the field of political studies to include not only politics at the state level but also the public social and popular domains that define and shape and are in turn defined and shaped by politics

Blitzkrieg to Desert Storm Robert Michael Citino, 2004 When Germany launched its blitzkrieg invasion of France in 1940 it forever changed the way the world waged war Although the Wehrmacht ultimately succumbed to superior Allied firepower in a two front war its stunning operational achievement left a lasting impression on military commanders throughout the world even if their own operations were rarely executed as effectively Robert Citino analyzes military campaigns from the second half of the twentieth century to further demonstrate the difficulty of achieving decisive results at the operational level Offering detailed operational analyses of actual campaigns Citino describes how UN forces in Korea enjoyed technological and air superiority but found the enemy unbeatable provides analyses of Israeli operational victories in successive wars until the Arab states finally grasped the realities of operational level warfare in 1973 and tells how the Vietnam debacle continued to shape U S doctrine in surprising ways Looking beyond major power conflicts he also reveals the lessons of India s blitzkrieg like drive into Pakistan in 1971 and of the senseless bloodletting of the Iran Iraq War Citino especially considers the evolution of U S doctrine and assesses the success of Desert Storm in dismantling an entrenched defending force with virtually no friendly casualties He also provides one of the first scholarly analyses of Operation Iraqi Freedom showing that its plan was curiously divorced from the realities of military history grounded instead on nebulous theories about expected enemy behavior Throughout Citino points to the importance of mobility especially mobilized armor in modern operational warfare and assesses the respective roles of firepower training doctrine and command and control mechanisms Brimming with new insights Citino s study shows why technical superiority is no guarantee of victory and why a thorough grounding in the history of past campaigns is essential to anyone who wishes to understand modern warfare Blitzkrieg to Desert Storm provides that grounding as it addresses the future of operational level warfare in the post 9 11 era
