the region's economies became increasingly interconnected during this period The Open Sea argues that the keys to understanding the region's rapid social and economic change during the Iron Age are the variety of economic and political solutions its different cultures devised the patterns of cross cultural exchange and the sharp environmental contrasts between Egypt the Near East and Greece and Rome The book examines long run drivers of change such as climate together with the most important economic institutions of the premodern Mediterranean coinage money agriculture and private property It also explores the role of economic growth states and legal institutions in the region's various economies A groundbreaking economic history of the ancient Mediterranean world The Open Sea shows that the origins of the modern economy extend far beyond Greece and Rome

Art, Science, and the Natural World in the Ancient Mediterranean, 300 BC to AD 100 Joshua J. Thomas, 2021-12-22 The Hellenistic Period witnessed striking new developments in art literature and science This volume addresses a particularly vibrant area of innovation the study of animals and the natural world While Aristotle and his followers had revolutionized fields such as zoology and botany during the fourth century BC these disciplines took on exciting new directions during Hellenistic times Kings imported exotic species into their royal capitals from faraway lands Travel writers described unusual creatures that they had never previously encountered And buyers from a range of social levels chose works of art featuring animals and plants to decorate their palaces houses and tombs While textual sources shed some light on these developments the central premise of *Art Science and the Natural World in the Ancient Mediterranean* is that our surviving artistic evidence permits a fuller understanding Accordingly the study brings together a rich body of visual material that invites new observations on how and why knowledge of the natural world became so important during this period It is suggested that this cultural phenomenon affected many different groups in society from kings in Alexandria and Pergamon to provincial aristocrats in the Levant and from the Julio Claudian imperial family to prosperous homeowners in Pompeii By analysing the works of art produced for these individuals a vivid picture emerges of this remarkable aspect of ancient culture
