Enlightened Reform in Southern Europe and its Atlantic Colonies, c. 1750-1830 Gabriel Paquette, 2016-05-06 Efforts to ascertain the influence of enlightenment thought on state action especially government reform in the long eighteenth century have long provoked stimulating scholarly quarrels Generations of historians have grappled with the elusive intersections of enlightenment and absolutism of political ideas and government policy In order to complement expand and rejuvenate the debate which has so far concentrated largely on Northern Central and Eastern Europe this volume brings together historians of Southern Europe broadly defined and its ultramarine empires Each chapter has been explicitly commissioned to engage with a common set of historiographical issues in order to reappraise specific aspects of enlightened absolutism and enlightened reform as paradigms for the study of Southern Europe and its Atlantic empires In so doing it engages creatively with pressing issues in the current historical literature and suggests new directions for future research No single historian working alone could write a history that did justice to the complex issues involved in studying the connection between enlightenment ideas and policy making in Spanish America Brazil France Italy Portugal and Spain For this reason this well conceived balanced volume drawing on the expertise of a small carefully chosen cohort offers an exciting investigation of this historical debate

Mineral Springs Resorts in Global Perspective John K. Walton, 2016-04-08 Spa resorts were a favoured destination for affluent seekers after health and comfortable leisure in opulent surroundings from the seventeenth to the twentieth century although in the railway age they began to suffer from competition from new fashions in leisure and tourism especially the seaside holiday During their heyday the leading spa resorts became hotbeds of political and diplomatic intrigue and gathering points for high society As such they also became important businesses and distinctive carefully managed urban environments Taking the waters at a mineral springs resort fell into eclipse over much of the Western world in the mid twentieth century only to revive in more diffuse guise as health and wellness tourism in the new millennium This book

examines an important body of practices and experiences from the perspectives of health pleasure conspicuous consumption and display urban governance culture and politics across a quarter of a millennium drawing its examples not only from the British Isles France Spain and Central Europe but also from the United States and Australia An international team of distinguished historians puts this neglected theme back on the historical map at a time when spas and their treatments have never been so popular and visible in contemporary society This book was published as a special issue of the Journal of Tourism History Annals of the Artists of Spain Sir William Stirling-Maxwell,1891 Spanish Romanesque Architecture of the Eleventh Century Walter Muir Whitehill,1968 **The Antiquary** Edward Walford,George Latimer Apperson,1889
