It provides best practice techniques for all aspects of project management within a partnership context supported by diagrams and illustrations. It explains how DPs can use Project Cycle Management to design and implement their projects to identify mainstreaming opportunities and build a logical framework within which to identify and clarify problems and then design, plan, implement, monitor and evaluate projects to overcome them. The toolkit is based on extensive research into Round 1 carried out with the Commission Development Partnerships and international expertise in planning and evaluating multi partner projects in over 40 countries.
