**The Transfer of Conflict-Related Detainees** Maral Kashgar, 2022-09-14 Im Rahmen ihrer Beteiligung an multinationalen Militäroperationen ist es für truppenstellende Staaten erforderlich Gegner in Gewahrsam zu nehmen. Doch was wenn der Staat die Gewahrsamsperson nicht im eignen Gewahrsam behalten will? Unter welchen Voraussetzungen ist es möglich die Gewahrsamsperson an einen anderen Staat zu berstellen? Im Gegensatz zu den Vorgaben des menschenrechtlichen *refoulement* Verbots haben die humanitären völkerrechtlichen berstellungsregeln der Genfer Konventionen von 1949 bisher trotz ihrer vorrangigen Anwendbarkeit in bewaffneten Konflikten wenig Beachtung gefunden. Mit der Kommentierung dieser Regeln schließt dieses Werk eine Lücke in der wissenschaftlichen Literatur zur Thematik. **From**

**Lowlands to High Skies: A Multilevel Jurisdictional Approach Towards Air law** Pablo Mendes de Leon, 2013-10-10 This volume brings together a fascinating collection of essays on air law approached from national, European and international perspectives. These perspectives often interact, always interestingly but not necessarily harmoniously, a theme which forms a Leitmotiv in the writings, reports and pleadings of John Balfour to whom the volume is dedicated. Written by a diverse group of experts in the field of air law, the collection is divided into three parts: Public Air Law, EU Air Law and Private Air Law.

**Arms Transfers to Non-State Actors** Hannah Kiel, 2024-05-02 This insightful book analyses the issue of norm erosion in international law by examining arms transfers to non-state actors. Balancing empirical research with legal theory, the author dissects recent case studies tracing individual changes in norms against a background of systemic transformation.

Tourism, Public Transport and Sustainable Mobility C. Michael Hall, Diem-Trinh Le-Klähn, Yael Ram, 2017-02-03 This book offers a comprehensive global examination of the relationship between public transport and tourism, as well as exploring other sustainable transport modes. It offers a unique view by analysing tourism through the public transport lens and vice versa. The volume provides an account of how the public transport experience can be improved for tourists so that its value can be maximised and a greater number of people can be encouraged to shift modes. It features a wide range of case studies and examples showing how the tourism industry, as well as regional economies, communities and the environment benefit when public transport is widely used by tourists. The book will be of interest to researchers and students in the fields of tourism and transport, as well as destination marketing organisations and tourism, transport and urban planners. **Federal Register**, 1983-04-11 **Official Records**, 1977 Where to send patients abroad for mineral and other water cures and climatic treatment Thomas Linn, 1894 **A Selection of Cases on the Law of Partnership** James Barr Ames, 1893
