

A silver stethoscope is positioned on a solid blue background. The stethoscope's tubing forms a large, symmetrical loop that frames the text on the left. The chest piece, which is circular with a central metal disc, is located at the bottom center of the frame. The binaurals (earpieces) are at the top, pointing outwards.

**The physical examination** L. Lodewick, 2012-12-06 Having the privilege of editing the English language version of this book I have found the detailed thought explanation and step by step instruction that this book provides most refreshing and stimulating There are few publications indeed that provide a completely reliable companion to bedside and out patient instruction for the medical student and even fewer that enhance the established physician s techniques Medical skills in the art and science of patient examination are normally learnt experimentally time personal instruction and constant repetition are necessary for them to be acquired Even then it must be admitted by many that there are some techniques that are never fully understood properly learnt or correctly concluded and these errors are liable to a lifetime s repetition This volume with its excellent photographs and illustrations takes the reader clearly and incontrovertibly step by step through every detail of all the procedures necessary for the standard forms of examination of a patient It is a companion for every student and doctor who wishes to learn fully and completely these necessary skills and to improve the ones they already have Dr Alexander D G Gunn Director University Health Service Reading Berks UK 1982 Preface to the Dutch edition The idea of writing this book coincided almost then a superficial acquaintance with five or six exactly with the establishment of a skills fashions and proficiency in none of them
