## **The Poetic Repercussion:**

**Gadamer's Repercussions** Bruce Krajewski, 2004 Gadamer's Repercussions is a terrific collection of essays While Gadamer is not the most precise of philosophers he turns out in this book at least to be among the most generative The essays prove that Gadamer's idealizing of dialogue can actually be put in practice by careful attention to the frameworks he addresses I was most impressed by the essays that situate his ethics his aesthetics his relation to romanticism his understanding of the relation of law and morality his engagements with Fascism and several aspects of his vexed relationship with postmodern thinking especially on the possibility of dialogue Charles Altieri author of *The Particulars of Rapture* Gadamer is well known for his insistence that every reading is a new reading and every act of understanding a pathway to new understanding Krajewski's carefully assembled volume applies these maxims to the understanding of Gadamer himself By focusing on his intellectual and political background as well as his long range influence and repercussions the book opens new vistas for assessing one of the philosophical giants of the twentieth century Fred Dallmayr author of *Dialogue Among Civilizations*

**MUSICAL REPERCUSSIONS** Carol E. *The Poetics of Ancient and Classical Arabic Literature* Esad Durakovic, 2015-04-24 Through analysing ancient and classical Arabic

literature including the Qur'an from within the Arabic literary tradition this book provides an original interpretation of poetics and of other important aspects of Arab culture Ancient Arabic literature is a realm of poetry prose literary forms emerged rather late and even then remained in the shadow of poetic creative efforts Traditionally this literature has been viewed through a philologist's lens and has often been represented as materialistic in the sense that its poetry lacked imagination As a result Arabic poetry was often evaluated negatively in relation to other poetic traditions The Poetics of Ancient and Classical Arabic Literature argues that old Arabic literature is remarkably coherent in poetical terms and has its own individuality and that claims of its materialism arise from a failure to grasp the poetic principles of the Arabic tradition Analysing the Qur'an which is known for confronting the poetry of the time this book reveals that post-Qur'anic literature came to be defined against it Thus the constitution and interpretation of Arabic literature imposed itself as a particular exegesis of the sacred Text Disputing traditional interpretations by arguing that Arabic literature can only be assessed from within and not through comparison with other literary traditions this book is of interest to students and scholars of Islamic Studies Arabic Studies and Literary Studies
