Jeffrey Ogbonna Green Ogbar,2007 As hip hop artists constantly struggle to keep it real this fascinating study examines the debates over the core codes of hip hop authenticity as it reflects and reacts to problematic black images in popular culture placing hip hop in its proper cultural political and social contexts **Traveling Sounds** Wilfried Raussert,John Miller

Jones,2008 Within their approach to trace the routes of music and music's impact on identity formation the editors take the popularity of American music more or less for granted Most genres addressed in this study have emerged within the multiethnic US or the Americas on a larger scale most have traversed through the Americas and in different adaptations through different parts of the world Tracing the migration of sounds the editors see American music at home and abroad as an intricate part of a historical process of globalization and as embedded in complex and multidirectional processes of exchange and transformation They understand the migration of American forms of music not as a one dimensional homogenizing process of Americanization but rather as a multidirectional journey with diverse and multi layered forms of music emerging in different and shifting locales The contributors cover a broad range of musical genres ranging from sacred music and avant garde music to jazz reggae and rock Moreover crossovers between film theater video art and music are explored In its interdisciplinary and international orientation this book will contribute to the new direction American Studies has taken recently and expand a cultural studies approach to the field of music at the same time
