Some Exponents Of Mystical Religion 1930:

Some Exponents of Mystical Religion Rufus M. Jones, 2013-10 This is a new release of the original 1930 edition
Get Unstuck from Fundamentalism - A Spiritual Journey Robert P. Crosby, 2006-03 Get Unstuck from Fundamentalism unravels the mystery behind the need to hold myths as literal truth and the need for certainty Written in and laced with engaging Italian stories it points beyond mere rejection of childhood upbringing to a deep spiritual shore that is there for all of us to find Children live in a literal world where myths and reality are blurred such as the existence of Santa Claus or the Tooth Fairy Many of those beliefs are unraveled by the time you become an adult but fundamentalism is that which remains locked into absolutism It is as if all the answers and purpose of the world come from outside of yourself and the stories if still held literally remain in charge of your thinking Most aren't even aware of this 30% of Americans hold fundamentalist beliefs but only 9% call themselves a fundamentalist Those who are unaware cannot realize that they live on the ends of strings that someone else pulls Others live in reaction against their childhood literal beliefs and therefore shut themselves off from further spiritual growth

Restless Souls Leigh Eric Schmidt, 2012-09-05 Yoga classes and Zen meditation New Age retreats and nature mysticism all are part of an ongoing religious experimentation that has surprisingly deep roots in American history Tracing out the country's Transcendentalist and cosmopolitan religious impulses over the last two centuries Restless Souls explores America's abiding romance with spirituality as religion's better half Now in its second edition including a new preface Leigh Eric Schmidt's fascinating book provides a rich account of how this open road spirituality developed in American culture in the first place as well as a sweeping survey of the liberal religious movements that touted it and ensured its continued vitality

The Mind of a Poet Raymond Dexter Havens, 2020-02-03 Originally published in 1941 This book stresses the transcendental rather than purely aesthetic qualities of William Wordsworth's work It argues that the unusual aspects of Wordsworth's mind are not isolated and did not seem to him fanciful or merely personal they were for him so many paths difficult to find and harder to follow yet leading to the great central truth that is the goal of all humankind's loftier strivings
