Somerset Home Guard:

Frome at War 1939-45 David Lassman, 2020-03-20 Frome at War 1939 1945 is a comprehensive account of this Somerset market town's experience of the conflict covering in detail life on the Home Front set against the background of the wider theatres of war. The narrative of that global struggle is given with a focus on the ordeals endured by the people of Frome as they cheered their men and women fighters off to war, welcomed hundreds of evacuated men, women and children to the town and contributed their part to the fight against Hitler and the Nazi threat. Rare insights into the life of the town are included along with seldom told stories from the footnotes of history from Frome's part within the secret underground resistance movement and the national fight for women's equality to the gradual influx of American GIs and Field Marshall Montgomery's stay in the aftermath of Dunkirk. The book incorporates memoirs and memories along with in depth research from official records and newspaper accounts which allow the reader to see the war not only from ordinary people's perspective but the military experiences of Frome's heroic men and women and in many cases their tragic sacrifices as well. More controversial aspects are also touched on including injustice, espionage, racism and politics to give a full and fascinating picture of a town facing profound trials of endurance and courage but at the same time revealing the characteristics that have sustained Frome throughout its illustrious and turbulent history.

Tracing Your Second World War Ancestors Phil Tomaselli, 2011-12-13 The Second World War was the defining conflict of the twentieth century and it is one of the most popular and fascinating areas for historical research and for family historians. More records than ever are available to researchers whose relatives served during the war. And this new book by Phil Tomaselli is the perfect guide to how to locate and understand these sources and get the most out of them. He explains how and from where service records can be obtained using real examples showing what they look like and how to interpret them. He also examines records of the military units relatives might have served in so their careers can be followed in graphic detail. The three armed services are covered along with the merchant navy, the Home Guard, civilian services, prisoners of war, gallantry and campaign medals, casualties, women's services and obscure wartime organizations. Also included are a glossary of service acronyms, information on useful websites, an introduction to the National Archives and details of other useful sources.

Defending Gloucestershire and Bristol Mike Osborne, 2024-06-03 Gloucestershire's strategic location straddling the Severn is reinforced by Bristol's importance as a port. The Forest of Dean and the Cotswolds are densely populated by prehistoric hillforts and Gloucester, Cirencester and Winchcombe were important throughout the Roman and Anglo Saxon periods. The Normans built substantial castles at Bristol, Gloucester and Berkeley. Scene of Edward II's murder with many more of earth and timber. Many figures in the conflicts between rival factions culminating in the Battle of Tewkesbury. In the Civil War Bristol underwent two sieges and Gloucester another and one of the last battles at Stow followed continuous skirmishing. The next centuries saw volunteer forces established formalised by the State by the end of Victoria's reign to counter threats external and internal. A nascent aircraft

industry would develop into aircraft factories and airfields in the First World War with further development of training and aircraft storage facilities for the newly formed RAF during the inter War period Anti invasion defences were constructed in the Second World War but the primary effort was in logistics bases for arriving US troops RAF and USAAF training airfields and depots and communications facilities This last aspect along with intelligence gathering continued into the Cold War and beyond
