Carter,2006 This publication is a DVD with the complete second edition of Cross Bedding Bedforms and Paleocurrents in PDF format and an interactive program which shows animations of the formation of complex bedforms under multiple sets of variables Additional video files

include flume and river bed videos The DVD is housed in a book like hard cover which includes a printed summary of the DVD contents This publication helps explain the key to interpreting cross stratified deposits is reconstructing the shape and motion of bedforms that deposited the bedding a problem of pure geometry This reconstructed history of bedform shape and motion can then be used to interpret the history of flow sediment transport and depositional processes problems of physics fluids and sedimentology Computer visualization is ideal for the geometrical aspects of this work because visualizing the geometry of layers deposited by complicated bedforms that change shape and change motion can be difficult if not impossible     *Media Review Digest* C.
