Osagyefo Dr. Kwame Nkrumah Martin Chukwuka Okany,2008

An Anatomy Of Ghanaian Politics Naomi Chazan,2019-02-28 The paths of African states have diverged markedly since the termination of colonial rule Nevertheless Ghana the first African state to achieve independence epitomizes both the political gyrations and the overall stagnation common to many other countries on the continent This work concentrates on the 1969 1982 period in Ghana focusing on two interrelated facets of African politics the decline of state power and authority and adjustments to political recession The author traces the dual patterns of diminution of the state and the adaptation of autonomous coping mechanisms in the separate spheres of political leadership political structures and institutions ideology and political economy The dynamic of state society interactions is then treated in terms of the rhythm of dissent conflict and disengagement Dr Chazan provides a comprehensive study of Ghanaian politics from the 1970s to the present By systematically analyzing the process of political decline and regeneration she highlights similar processes apparent elsewhere in Africa The stress on the subtleties and direction of political change has important implications for policymakers and policy analysts alike

Disentangling Consciencism Martin Odei Ajei,2016-12-06 Kwame Nkrumah is globally recognized as a foremost pan Africanist strategist and statesman He is less widely acknowledged as a philosopher in spite of his considerable philosophical training seminal contribution to African political theory and incisive critique of the ethics of international relations Consciencism has the distinctive status of being the only published book that Nkrumah consciously meant to be a work of his philosophy yet it has failed to attract the focused attention of philosophers The chapters in Disentangling Consciencism Essays on Kwame Nkrumah s Philosophy critically explore the metaphysical ethical and political thought expressed in Consciencism In doing so they broaden our understanding of his philosophical ideas and their relevance for effective African contribution to thought in a contemporary world in which Africa increasingly totters on the margins of international affairs In much of current moral and political thinking there is a tendency to universalize liberal values and neglect non Western philosophical perspectives At the same time global normative thinking is overwhelmingly applied in non Western contexts Writing from across three continents the contributors to this volume establish greater intellectual connection among African Asian and Western academics and their chapters offer explicit perspectives on the value of Nkrumah s philosophy and on the conceptual basis of early post colonial public policy options in Africa A valuable appendix provides the text of speeches delivered at the 1964 launch of Consciencism With insights into numerous dimensions of Nkrumah s philosophy this volume will be of particular interest to students and scholars of philosophy especially of non Western metaphysical moral and political thought and to anyone working in the history of African political theory

Reflections on Leadership and Institutions in Africa Kenneth Kalu,Toyin Falola,2020-05-22 This book contains different reflections on leadership and institutions in Africa Drawing from different ideological and methodological

orientations the book highlights how leadership and institutions have shaped and continue to shape the trajectory of Africa's political and economic development. The book explores different epochs in Africa's history from the era of colonialism to the period of nationalist movements and up to post colonial Africa. Essays in the volume engage with major actors and important institutions that defined each era. By presenting various reflections and representations of leadership and institutions in Africa this book attempts to make the connection between leadership and institutions on the one hand and between these variables and Africa's development on the other. Similar to most studies on Africa's political economy the book considers the role of external forces whether operationalized through direct interventions as was the case during the colonial era or through subtle imposition of policies as has been the new model in post colonial times. Drawing from these lenses issues around Africa's dependency on external interventions neo colonialism, neoliberalism and disregard for Africa's culture are explored and contextualized within the framework of leadership and institutions.
