Some Priggee Good Stuff A Collection Of Editorial Cartoons:

Editorial Cartooning and Caricature Paul Somers, 1998-02-18 This reference traces the historical background of editorial cartooning and presents works that chronicle the history and criticize the aesthetics of the art It also describes anthologies and exhibition catalogs that reprint editorial cartoons and provides a list of libraries museums and historical societies which house originals and photocopies or clippings of editorial cartoons This expansive volume examines the American editorial cartoon from its beginnings in 1747 into the second Clinton administration It fills a gap in the literature providing comprehensive information on a field of growing interest to scholars and collectors This reference guide studies the evolution of editorial cartooning and places it in its historical context and provides appreciation and criticism of the cartoons presented In addition to political cartoons underground radical and propaganda cartoons are also discussed in this volume The appendixes offer important cross reference tools such as a chronology and include listings of selected historical periodicals theses and dissertations covering political cartoons This work will be of value to a broad spectrum of readers from collectors to scholars and is suitable for many fields of study The Best Political Cartoons of the Year, 2010 Edition, Portable Documents Daryl Cagle, Brian Fairrington, 2009-09-04 The Best of the Year in Editorial Cartoons The best cartoonists in the world contributed to this collection of the best cartoons of 2009 from Daryl Cagle's Political Cartoonists Index the most popular cartoon site on the Web www.cagle.com More than 600 cartoons cover the major topics of the historic year when America saw its first black president sworn into office The economy sank despite humungous bailouts and unemployment hit new highs not to mention the drama of Octomom Sotomayor Swine Flue GM's bankruptcy Iran's election chaos and the death of Michael Jackson This cool book chronicles the history of the year 2009 with cartoons you'll never forget Drawn to Extremes Chris Lamb, 2004 In 2006 a cartoon in a Danish newspaper depicted the Prophet Mohammed wearing a bomb in his turban The cartoon created an international incident with offended Muslims attacking Danish embassies and threatening the life of the cartoonist Editorial cartoons have been called the most extreme form of criticism society will allow but not all cartoons are tolerated Unrestricted by journalistic standards of objectivity editorial cartoonists wield ire and irony to reveal the naked truths about presidents celebrities business leaders and other public figures Indeed since the founding of the republic cartoonists have made important contributions to and offered critical commentary on our society Today however many syndicated cartoons are relatively generic and gag related reflecting a weakening of the newspaper industry's traditional watchdog function Chris Lamb offers a richly illustrated and engaging history of a still vibrant medium that forces us to take a look at ourselves for what we are and not what we want to be The 150 drawings in *Drawn to Extremes* have left readers howling sometimes in laughter but often in protest International Journal of Comic Art, 2009 **Cartoonist Profiles**, 1990 The Canadian Encyclopedia James H. Marsh, 1999 This edition of The Canadian Encyclopedia is the largest most comprehensive book ever published in Canada for the general reader It is COMPLETE every aspect of Canada

from its rock formations to its rock bands is represented here It is UNABRIDGED all of the information in the four red volumes of the famous 1988 edition is contained here in this single volume It has been EXPANDED since 1988 teams of researchers have been diligently fleshing out old entries and recording new ones as a result the text from 1988 has grown by 50% to over 4 000 000 words It has been UPDATED the researchers and contributors worked hard to make the information as current as possible Other words apply to this extraordinary work of scholarship AUTHORITATIVE RELIABLE and READABLE Every entry is compiled by an expert Equally important every entry is written for a Canadian reader from the Canadian point of view The finished work many years in the making and the equivalent of forty average sized books is an extraordinary storehouse of information about our country This book deserves pride of place on the bookshelf in every Canadian Home It is no accident that the cover of this book is based on the Canadian flag For the proud truth is that this volume represents a great national achievement From its formal inception in 1979 this encyclopedia has always represented a vote of faith in Canada in Canada as a separate place whose natural worlds and whose peoples and their achievements deserve to be recorded and celebrated At the start of a new century and a new millennium in an increasingly borderless corporate world that seems ever more hostile to national distinctions and aspirations this Canadian Encyclopedia is offered in a spirit of defiance and of faith in our future The statistics behind this volume are staggering The opening sixty pages list the 250 Consultants the roughly 4 000 Contributors all experts in the field they describe and the scores of researchers editors typesetters proofreaders and others who contributed their skills to this massive project The 2 640 pages incorporate over 10 000 articles and over 4 000 000 words making it the largest some might say the greatest Canadian book ever published There are of course many special features These include a map of Canada a special page comparing the key statistics of the 23 major Canadian cities maps of our cities a variety of tables and photographs and finely detailed illustrations of our wildlife not to mention the colourful informative endpapers But above all the book is encyclopedic which the Canadian Oxford Dictionary describes as embracing all branches of learning This means that with rare exceptions there is satisfaction for the reader who seeks information on any Canadian subject From the first entry A mari usque ad mare from sea to sea which is Canada's motto and a good description of this volume's range to the Zouaves who mustered in Quebec to fight for the beleaguered Papacy there is the required summary of information clearly and accurately presented For the browser the constant variety of entries and the lure of regular cross references will provide hours of fascination The word encyclopedia derives from Greek expressions alluding to a grand circle of knowledge Our knowledge has expanded immeasurably since the time that one mind could encompass all that was known Yet now Canada's finest scientists academics and specialists have distilled their knowledge of our country between the covers of one volume The result is a book for every Canadian who values learning and values Canada
