Over thirty leaders in American architecture discuss the most significant issues in the field today. Home is an idea, Meghan Daum writes in her foreword, a story we tell ourselves about who we are and who and what we want closest in our midst. In *The American Idea of Home*, documentary filmmaker Bernard Friedman interviews more than thirty leaders in the field of architecture about a constellation of ideas relating to housing and home. The interviewees include Pritzker Prize winners Thom Mayne, Richard Meier, and Robert Venturi; Pulitzer Prize winners Paul Goldberger and Tracy Kidder; American Institute of Architects head Robert Ivy; and legendary architects such as Denise Scott Brown, Charles Gwathmey, Kenneth Frampton, and Robert A. M. Stern. *The American Idea of Home* and the many types of housing that embody it launch lively, wide-ranging conversations about some of the most vital and important issues in architecture today. The topics that Friedman and his interviewees discuss illuminate five overarching themes: the functions and meanings of home, history, tradition, and change in residential architecture; activism; sustainability; and the environment, cities, suburbs, and regions; and

technology innovation and materials Friedman frames the interviews with an extended introduction that highlights these themes and helps readers appreciate the common concerns that underlie projects as disparate as Katrina cottages and Frank Lloyd Wright Usonian houses Readers will come away from these thought provoking interviews with an enhanced awareness of the under the hood kinds of design decisions that fundamentally shape our ideas of home and the dwellings in which we live *MacTech Magazine* ,1996 Primarily Earth Evalyn Hoover,Sheryl Mercier,AIMS Education Foundation,1996 This book offers activities that encourage young learners to take note of the world around them It is divided into three areas of earth study the geosphere the solid portion of the earth the hydrosphere the waters on the surface of the earth and the atmosphere the air surrounding the earth **T.
