originally published in 1913 *Extract* The houses themselves were substantial and very decent One could walk all round seeing little front gardens with auriculas and saxifrage in the shadow of the bottom block sweet williams and pinks in the sunny top block seeing neat front windows little porches little privet hedges and dormer windows for the attics But that was outside that was the view on to the uninhabited parlours of all the colliers wives The dwelling room the kitchen was at the back of the house facing inward between the blocks looking at a scrubby back garden and then at the ash pits And between the rows between the long lines of ash pits went the alley where the children played and the women gossiped and the men smoked So the actual conditions of living in the Bottoms that was so well built and that looked so nice were quite unsavoury because people must live in the kitchen and the kitchens opened on to that nasty alley of ash pits Mrs Morel was not anxious to move into the Bottoms which was already twelve years old and on the downward path when she descended to it from Bestwood But it was the best she could do Moreover she had an end house in one of the top blocks and thus had only one neighbour on the other side an extra strip of garden And having an end house she enjoyed a kind of aristocracy among the other women of the between houses because her rent was five shillings and sixpence instead of five shillings a week But this superiority in station was not much consolation to Mrs Morel *Biography* D H Lawrence born in 1885 2 March 1930 was an English novelist poet playwright essayist literary critic and painter His collected works represent among other things an extended reflection upon the dehumanising effects of modernity and industrialisation Some of the issues Lawrence explores are sexuality emotional health vitality spontaneity and instinct Lawrence s opinions earned him many enemies and he endured official persecution censorship and misrepresentation of his creative work throughout the second half of his life much of which he spent in a voluntary exile he called his savage pilgrimage *Ploy Summary* The third published novel of D H Lawrence taken by many to be his earliest masterpiece tells the story of Paul Morel a young man and budding artist Richard Aldington explains the semi autobiographical nature of his masterpiece When you have experienced *Sons and Lovers* you have lived through the agonies of the young Lawrence striving to win free from his old life Generally it is not only considered as an evocative portrayal of working class life in a mining community but also an intense study of family class and early sexual relationships The refined daughter of a good old burgher family Gertrude Coppard meets a rough hewn miner Walter Morel at a Christmas dance and falls into a whirlwind romance characterised by physical passion But soon after her marriage to Walter she realises the difficulties of living off his meagre salary in a rented house The couple fight and drift apart and Walter retreats to the pub after work each day Gradually Mrs Morel s affections shift to her sons beginning with the oldest William As a boy William is so attached to his mother that he doesn t enjoy the fair without her As he grows older he defends her against his father s occasional violence Eventually he leaves their Nottinghamshire home for a job in London where he begins to rise up into the middle class He is engaged but he detests the girl s superficiality He dies and Mrs Morel is heartbroken but when Paul catches pneumonia she rediscovers her love for her second son The Biography Book Daniel S.
