Song of Songs Marvin H. Pope, 2007 The Song of Songs has been compared to a

lock for which the key was lost Traditionally ascribed to King Solomon the book has a sensuous imagery that has been the subject of various allegorical interpretations chiefly as relating to Yahweh s love for Israel or Christ s love for the Church Marvin H Pope suggests that the poem is what it seems an unabashed celebration of sexual love both human and divine rooted in the fertility religions of the ancient Near East the sacred marriage rite and the funeral feast A distinctive feature of his interpretation is the correlation between Love and Death Also discussed are parallel literatures possible Indian influences and the significance of the Song for women s liberation Samples of traditional Jewish and Christian allegorical interpretations

are cited for each verse Numerous photographs and drawings of ancient Near East origin illustrate and authenticate this provocative and controversial interpretation of Solomon s sublime song **Singers and Songs of the Liberal Faith** Alfred Porter Putnam,1875 **The Song of Songs** Debra Band,2005 Now in The Song of Songs The Honeybee in the Garden author and artist Debra Band presents a breathtakingly beautiful illuminated work in which these two lines of interpretation are harmonized within a stunning visual context **Information Visualization Techniques in the Social Sciences and Humanities** Osinska, Veslava,Osinski, Grzegorz,2018-03-23 The representation of abstract data and ideas can be a difficult and tedious task to handle when learning new concepts however the advances in emerging technology have allowed for new methods of representing such conceptual data Information Visualization Techniques in the Social Sciences and Humanities is a critical scholarly resource that examines the application of information visualization in the social sciences and humanities Featuring coverage on a broad range of topics such as social network analysis complex systems and visualization aesthetics this book is geared towards professionals students and researchers seeking current research on information visualization
