Teaching Reading In The Elementary Classroom:

Teaching Reading in the Elementary Classroom John W. Miller, Michael C. McKenna, 1989 **Teaching Reading in the Elementary School** Eldon E. Ekwall, 1985 **How to Teach Reading to Elementary and Middle School Students** Robert B. Ruddell, 2009

How to Teach Reading to Elementary and Middle School Students Practical Ideas from Highly Effective Teachers is a strategy based text that successfully combines ideas from the classrooms of highly effective teachers with the latest findings from reading research. The integration of skilled practice with reading theory provides practical useful techniques for teaching reading to students across a wide range of achievement levels. Instructional ideas presented in this book are designed to ensure continued growth in reading skill including the use of phonics and structural analysis in sight vocabulary and meaning vocabulary development in reading fluency and in comprehension of narrative and informational text. Take a Peek How to Do boxes list step by step actions for conducting a reading skill or strategy lesson assessment procedure and other important instructional tasks. Strategies in Use feature provides a modeling of highly effective reading and literacy strategy instruction in real life classroom contexts by describing actual teachers carrying out specific instructional strategies and activities with their students. The Highly Effective Teacher on Technology boxes are designed to demonstrate ways teachers can integrate technology into reading and literacy instruction. Book Earns High Praise from Reviewers. Ruddell's text is one of the few that provides teaching strategies assessments and general information appropriate for intermediate grade reading instruction. Ruddell provides step by step instructions for important teaching strategies that every pre service teacher should know. Pamela Dunston, Clemson University. The technology section, the levels of thinking section, vocabulary section, professional growth section, and the section on questioning strategies are very good. Marie C. Roos, Jackson State University. I like how both narrative and expository literacy. Chapter 8 Developing Reading and Writing in Content Areas are covered in the textbook. I feel that helps set the book apart from others. The chapter on Instructing Delayed Readers in a Regular Classroom Setting. Chapter 10 also seems unique to me. That chapter addresses a very real need for teachers. Ward Cockrum, Northern Arizona University. Meet the Author. Robert Ruddell has been a reading teacher for over four decades. His research has examined the characteristics of reading teachers who are highly effective and influential in the lives of their students. The ideas and instructional strategies for teaching reading found in this book are a distillation of these teaching experiences and research findings. He has taught a wide range of courses in reading and language development working with teaching credential students and M A Ed D and Ph D students at Berkeley. He is Professor Emeritus of the Language Literacy and Culture Faculty Group at the University of California Berkeley.

Teaching Reading in the Elementary School Thomas G. Devine, 1989. The purpose of this book on reading instruction in the elementary school is twofold: firstly to share with colleagues some of the significant works of research and theory that suggest answers to important questions about reading instruction and secondly to describe specific teaching strategies.

implied by these answers The book assumes that reading is a normal human activity in which children may easily engage sees reading always within the context of the other language arts tends to deemphasize reading skills and hierarchies of skills and focuses more than some books on children s literature and content area reading After a brief preface and introduction the 9 chapters deal with the following topics 1 early reading 2 reading familiar words 3 reading unfamiliar words 4 reading to comprehend 5 reading stories 6 reading in the content areas 7 reading to study 8 reading and the other language arts and 9 organizing for instruction Each of the chapters ends with an Idea Box which presents a variety of suggested strategies for improving reading instruction and appropriate references for further reading and study Sr
