Teaching With Cases:

Teaching with Cases Espen Anderson,Bill Schiano,2014-07-31 Case method teaching immerses students in realistic business situations which include incomplete information time constraints and conflicting goals The class discussion inherent in case teaching is well known for stimulating the development of students critical thinking skills yet instructors often need guidance on managing that class discussion to maximize learning Teaching with Cases focuses on practical advice for instructors that can be easily implemented It covers how to plan a course how to teach it and how to evaluate it The book is organized by the three elements required for a great case based course 1 advance planning by the instructor including implementation of a student contract 2 how to make leading a vibrant case discussion easier and more systematic and 3 planning for student evaluation after the course is complete Teaching with Cases is ideal for anyone interested in case teaching whether basing an entire course on cases using cases as a supplement or simply using discussion facilitation techniques To learn more about the book and to see resources available visit teachingwithcases.hbsp.harvard.edu

Teaching with Cases James A. Erskine,Michiel R. Leenders,Louise A. Mauffette-Leenders,1981 **Case For Cases, The: Teaching With Cases - How To Teach Using The Case Method** Philip Zerrillo,2018-08-24 This book is intended to support faculty in designing and conducting case teaching The book is a practical how to guide for faculty setting up and delivering a case based class It can be used by instructors of all levels as it discusses issues such as class culture teaching pace grading board usage etc **Teaching and the Case Method** Louis B. Barnes,Carl Roland Christensen,Abby J. Hansen,1994 This third edition of Teaching and the Case Method is a further response to increased national and international interest in teaching teachers and learning as well as the pressing need to enhance instructional effectiveness in the widest possible variety of settings Like its predecessors this edition celebrates the joys of teaching and learning at their best and emphasizes the reciprocal exchange of wisdom that teachers and students can experience It is based on the belief that teaching is not purely a matter of inborn talent On the contrary the knowledge skills and attitudes that make for excellence in teaching can be analyzed abstracted and learned One key premise of Teaching and the Case Method is that all teaching and learning involve a core of universally applicable principles that can be discerned and absorbed through the study and discussion of cases *Teaching with Cases* William Thomas Schiano,Espen Anderson,2014 Case method teaching immerses students in realistic business situations which include incomplete information time constraints and conflicting goals The class discussion inherent in case teaching is well known for stimulating the development of students critical thinking skills yet instructors often need guidance on managing that class discussion to maximize learning Teaching with Cases focuses on practical advice for instructors that can be easily implemented It covers how to plan a course how to teach it and how to evaluate it The book is organized by the three elements required for a great case based course 1 advance planning by the instructor including implementation of a student contract 2 how to make leading a vibrant case discussion

easier and more systematic and 3 planning for student evaluation after the course is complete Teaching with Cases is ideal for anyone interested in case teaching whether basing an entire course on cases using cases as a supplement or simply using discussion facilitation techniques

The Case for Cases Philip Zerrillo, 2019 This book is intended to support faculty in designing and conducting case teaching The book is a practical how to guide for faculty setting up and delivering a case based class It can be used by instructors of all levels as it discusses issues such as class culture teaching pace grading board usage etc Publisher's description

Teaching with Cases Marcos Lima, Thierry Fabiani, 2014 Having used case studies for over ten years in Brazil and in France the authors share in this book their insights about the classic Harvard Method as well as a more Framework centric approach They also discuss their own Fragmented Synthesis technique based on the principles of Active Learning which stimulates critical and creative thinking through student collaboration The book illustrates the use of these approaches in three fully developed case studies with their respective teaching notes This guide is aimed at experienced business teachers who wish to gain insights on alternative approaches to teaching with cases as well as less experienced teachers who are looking for a behind the scenes peek at how cases are written and taught

How and Why to Begin Teaching with Cases Robert F. Bruner, 2001 Quot It's so daunting I have to listen to the students just figuring out what I want to say is hard enough The loss of control doesn't feel right I just don't know how to begin teaching with cases quot Words like these are spoken regularly both by newly minted Ph.D.s by veteran lecturers and anyone confronting the prospect of teaching by the discussion method using case studies Experienced case teachers make it seem easy the problem is how to get started This column offers some advice of my own as well as suggestions from a panel of contributors

Case Method and the Arabic Teacher Steven Berbeco, 2018-11-15 Case Method and the Arabic Teacher A Practical Guide compiles original case studies that address the unique challenges of teaching Arabic at the high school level The book's engaging and accessible classroom scenarios reflect the experiences of a diverse group of Arabic teachers working in a variety of educational settings ranging from elite private schools to large public schools with low income student populations In the case studies teachers offer compelling accounts of the political institutional and curricular issues they encountered not only in their classrooms but also in their wider schools and communities Combining research based methodology with firsthand pedagogical narratives this book is a valuable resource for teachers teacher trainers researchers and other stakeholders who support the teaching of Arabic

Theorizing Teaching Anna-Katharina Praetorius, Charalambos Y. Charalambous, 2023-03-11 This open access book seeks to create a forum for discussing key questions regarding theories on teaching Which theories of teaching do we have What are their attributes What do they contain How are they generated How context sensitive and content specific do they need to be Is it possible or even desirable to develop a comprehensive theory of teaching The book identifies areas of convergence and divergence among the answers to these questions by prominent international scholars in research on teaching Initiating exchanges among the authors it then evaluates whether consensus

can be reached on the areas of divergence The book concludes by discussing lessons learned from this endeavor and outlines steps that need to be taken for advancing future work on theorizing teaching As such the book is aimed at readers interested in an overview of the theorizing of teaching and key open questions that if addressed help to move the field forward **A Phenomenological Inquiry into Science Teachers' Case Method Learning** Sye Foong Yee,2018-10-04 This book illustrates a practical application of the Case Method as a teaching technique in teacher education and examines how learning takes place in a teacher professional development activity It also describes teachers lived experience of the activity based on Clark Moustakas 1994 guidelines for organizing and presenting a phenomenological study Case Study Analysis in the Classroom Renee W. Campoy,2005 Presented in an engaging and stimulating manner this text provides beginning teachers a variety of typical classroom problems to analyse and solve The Case for Cases in Teacher Education Katherine Klippert Merseeth,1991 This monograph argues that the case method of instruction used effectively in legal and medical education offers unique potential for revitalizing the field of teacher education A description of the use of the case method in two different teaching sessions demonstrates how the method can exemplify the way a teacher frames and solves a dilemma and encourage students to diagnose justify and reflect on alternative action plans In arguing the potential of the case method several key questions are addressed 1 What is meant by the case method and what purposes has the case method served in other professional fields 2 How do the capabilities of the case method match up with the necessary components of the teacher education curriculum and 3 If the case for cases in teacher education is compelling as this monograph argues that it is what will it take to move ahead and build the case method into existing teacher education curriculum and instruction For institutions recognizing education as a professional field the case method of instruction offers one effective pedagogical method by which to operationalize this belief JD *Case Research in Public Management* David E McNabb,2014-12-18 Highly readable and non technical this handbook is designed to help students and non profit managers gain a working knowledge of the principles and practices of conducting qualitative case study research in public organizations This book is a motherload of practical and comprehensive guidance to planning conducting analyzing and reporting case research project findings McNabb begins with a detailed rationale for the use of the case research approach in public administration non profit organizations and political science Then it provides step by step instructions on how to conduct single case multicase and meta analysis research with guidelines on organizing and writing the case report *Case Research in Public Management* also includes many examples of case studies in a wide range of important topics in public administration including performance management sustainable government technology management security issues emergency and disaster management social and health services infrastructure public transportation and transforming the work of government
