Suicide Attack:

Women Suicide Bombers V. G. Julie Rajan, 2011-08-26 This book offers an evaluation of female suicide bombers through postcolonial Third World feminist and human rights framework drawing on case studies from conflicts in Palestine Sri Lanka and Chechnya among others. Women Suicide Bombers explores why cultural media and political reports from various geographies present different information about and portraits of the same women suicide bombers. The majority of Western media and sovereign states engaged in wars against groups deploying bombings tend to focus on women bombers abnormal mental conditions their physicality for example their painted fingernails or their beautiful eyes their sexualities and the various ways in which they have been victimized by their backward Third World cultures especially by Islam. In contrast propaganda produced by rebel groups deploying women bombers cultures supporting those campaigns and governments of those nations at war with sovereign states and Western nations tend to project women bombers as mythical heroes in ways that supersedes the martyrdom operations of male bombers. Many of the books published on this phenomenon have revealed interesting ways to read women bombers subjectivities but do not explore the phenomenon of women bombers both inside and outside of their militant activities or against the patriarchal Orientalist and Western feminist cultural and theoretical frameworks that label female bombers primarily as victims of backward cultures. In contrast this book offers a corrective lens to the existing discourse and encourages a more balanced evaluation of women bombers in contemporary conflict. This book will be of interest to students of terrorism gender studies and security studies in general.

Women in Modern Terrorism

Jessica Davis, 2017-01-30 Recent events including the rise of the Islamic State and its overt recruitment of Western women have once again brought the issue of women participating in terrorist organizations to the forefront. Yet much remains to be understood about why women join terrorist organizations and why groups choose to incorporate them into their structures and operations. Women in Modern Terrorism which draws from a unique dataset compiled over a decade tackles these questions and analyzes women's inclusion in terrorist organizations since the beginning of modern terrorism covering both religious and ethno nationalist terrorism and conflict. The text opens with a discussion of the definition of terrorism before examining key issues such as how and why women join terrorist groups what women's inclusion in terrorist organizations reveals about the nature and longevity of both the groups and the conflicts the future of women's role in terrorist organizations and attacks particularly given the rise of new terrorist groups in Syria and Iraq and the types of attacks women perpetrate and how they compare across groups. By looking at case studies including Hizballah Chechnya the Liberation Tigers of Tamil Eelam Al Qaeda Boko Haram Al Shaabab and more this text shows that women's inclusion in various terrorist organizations is largely a pragmatic choice by the group. It also highlights the cross pollination of ideas between differently motivated groups. All these issues along with the role of the media and the Internet in radicalization and recruitment processes are explored to provide an exhaustive account of the many roles for women in terrorist groups today.

Bombers in Iraq Mohammed M. Hafez, 2007 The war in Iraq was supposed to be easy Instead it has delivered the message that Islamic resistance and martyrdom can defeat the only remaining superpower just as jihadists drove the Soviet Union from Afghanistan during the 1980s Now a haven for jihadists Iraq has entered a civil war whose duration scope and magnitude have yet to be determined The overwhelming majority of suicide attacks in Iraq have targeted Iraqi security forces and Shia civilians not coalition forces The perpetrators appear to be largely non Iraqi volunteers Many are from Saudi Arabia but substantial numbers have come from Europe Syria Kuwait Jordan and North Africa They are foiling U S plans to stabilize the country and turn it into a democratic regime and an ally in a region of religious radicalism entrenched authoritarianism and hostile states with nuclear ambitions Understanding the phenomenon of suicide bombing in Iraq is therefore vitally important for U S national security foreign policy in the Muslim world and the war on terrorism This study the first of its kind on the Iraqi insurgency draws extensively on open source intelligence and papers of record primary sources from insurgent groups including online documents and videos and interviews with U S servicemen who have served in Iraq It examines the history of suicide bombing in Iraq and many other countries theoretical perspectives on suicide bombing the varied factions that comprise the insurgency the ideology and theology of martyrdom supporting suicide bombers their national origins and characteristics and the prospects for a third generation of transnational jihadists forged in the crucible of Iraq
