*Teaching Leadership* Rajnandini Pillai, Susan Stites-Doe, 2003 A collection of papers which examine the reinvention of leadership education for the 21st century      **New Horizon of Psychological Assessment in Education (Penerbit USM)** Melissa Ng Lee Yen Abdullah, Lim Hooi Lian, Hairul Nizam Ismail, 2019-08-09 Psychological assessments are used in the field of education to find answers for the questions raised concerning the student's intellectual, academic, social and emotional functioning. The collection integrates and interprets all information and data gathered from the assessment to enable better understanding of the student's characteristics and capacities. More effective interventions, recommendations and referrals can then be implemented. This book offers researchers and practitioners insights on assessment concepts and practices that are in line with the demand of education in the 21st century. As the new horizon unfolds, there is a paradigm shift in assessment moving from macro to micro level of learning from accountability of school to supporting teaching and learning from summative to formative and diagnostics from assessing achievement of individuals to catering to learning needs of diverse learners.
