Will the enlarged Germany become a new economic giant in Europe and can the FRG maintain stability and prosperity? What

macroeconomic and structural problems are faced by the new Germany and what are the effects for trade investment and growth in Germany's partner countries Will East Germany catch up with the West and can this process serve as a model for Eastern Europe What are the views of Poland and the USSR and what implications arise for Western Europe and the United States Finally how is the triangular relationship between the US the EC and Japan affected and how does this affect the United States ability to organize economic cooperation with Japan Germany and other leading economies
