## **Snobs The Search For Satisfaction:**

**Snobs** Dimitra Seres,1991-10      *Proust's Snobs, Inverts, and Jews* Adeline Soldin,2025-03-06 An intersectional investigation of identity formation in Marcel Proust's magnum opus *À la recherche du temps perdu*. As metonyms for broader categories such as class, sexuality, and ethnicity, the three most discussed identity groups in Proust's *la Recherche du Temps Perdu*—snobs, inverts, and Jews—prove to be deeply intertwined and perplexing representations. Attentive to these interwoven complexities, Proust's *Snobs, Inverts, and Jews* examines the novelist's exploitation of classification systems as a means to subvert the notion of a fixed identity. To illustrate Proust's challenges to a social order that restricts our perceptions of identity, Adeline Soldin addresses the inconsistencies and friction surrounding the portrayal of these key figures in his seven-volume novel. Many scholars have recognized that the narrator's formative journey in *La Recherche* leads to disillusionment and increased mockery of his fellow characters. Soldin contends, however, that Proust does not merely deride characters' behavior but rather interrogates their diverse motivations and tendencies, thereby exposing the performative nature of identity. Proust's *Snobs, Inverts, and Jews* draws on Judith Butler's theories of performativity to illustrate Proust's precocious portrayal of identity in *La Recherche* as an elusive, unattainable idea that characters pursue yet consistently fail to establish. Ultimately, the enigmatic and anonymous narrator models fluidity and promotes fantasy and imagination to compensate for the limitations imposed on individuals by social and linguistic conventions.

This volume is published in celebration of that record of accomplishment. The 19 articles assembled here are a selection drawn from the 34.24% most frequently cited articles in the journal's history. An introductory essay written by Michalos explains the historical and scientific importance of each article in the development of social indicators or quality of life research. It provides a rare overview of the perceived scientific problems that researchers around the world addressed in the first three decades of exploration, as well as a view of some of the problems to be addressed in the future. A short essay describing the origins of the journal by its founder is also included. Anyone interested in having a single volume that contains some of the best research produced in this field will find this volume irresistible.
