The Second Cognitive Revolution Bo Allesøe Christensen,2019-10-17 Rom Harr s career spans more than 40 years of original contributions to the development of both psychology and other human and social sciences Recognized as a founder of modern social psychology he developed the microsociological approach ethogenics and facilitated the discursive turn within psychology as well as developed the concept of positioning theory Used within both philosophy and social scientific approaches aimed at conflict analysis analyses of power relations and narrative structures the development and impact of positioning theory can be understood as part of a second cognitive revolution Whereas the first cognitive revolution involved incorporating cognition as both thoughts and feelings as an ineliminable part of psychology and social sciences this second revolution released this cognition from a focus on individuals and towards a focus of understanding individuals as participating in public practices using public discourses as part of their cognition This edited volume adds to the scholarly conversation around positioning theory evaluates Rom Harr s significance for the history and development of psychology and highlights his numerous theoretical contributions and their lasting effects on the psychological and social sciences Included among the chapters What is it to be a human being Rom Harr on self and identity The social philosophy of Harr as a philosophy of culture The discursive ontology of the social world Ethics in socio cultural psychologies Discursive cognition and neural networks The Second Cognitive Revolution A Tribute to Rom Harr is an indispensable reader for anyone interested in his cognitive historical turn and finds an audience with academics and researchers in the social and human science fields of cognitive psychology social psychology discursive psychology philosophy sociology and ethnomethodology

**The Reality of Social Construction** Dave Elder-Vass,2012-04-23 Social construction is a central metaphor in contemporary social science yet it is used and understood in widely divergent and indeed conflicting ways by different thinkers Most commonly it is seen as radically opposed to realist social theory Dave Elder Vass argues that social scientists should be both realists and social constructionists and that coherent versions of these ways of thinking are entirely compatible with each other This book seeks to transform prevailing understandings of the relationship between realism and constructionism It offers a thorough ontological analysis of the phenomena of language discourse culture and knowledge and shows how this justifies a realist version of social constructionism In doing so however it also develops an analysis of these phenomena that is significant in its own right Reading Between The Lines: Toward an Understanding of Current Social

Problems Amanda Konradi, Martha Schmidt, 2003-07-31 Drawing from a wide selection of current research and writings Reading Between the Lines brings together accessible readings that examine a broad range of social problems and reflect different conceptual approaches The text provides a conceptual framework for understanding social problems and enables an integrated race class and gender analysis      *Texts Of Desire* Linda K.
