del considered finished Its main topic is set theory in which G del anticipated several decades of development Secondly G del completed his 1933 program of establishing the connections between intuitionistic and modal logic by methods and results that today are at the same time new and 80 years old The present edition of G del s four notebooks encompasses the 368 numbered pages and 126 numbered theorems of the Results on Foundations together with a list of 74 problems on set theory G del prepared in 1946 and a list of an unknown date titled The grand program of my research in ca hundred questions
