South African Truth Commission:

The South African Truth Commission Dorothy C. Shea, 2000 In the latter half of the 1990s South Africa's Truth and Reconciliation Commission TRC offered the country the chance to build a better future by facing up to its past Amid saturation media coverage victims of human rights abuses told their harrowing stories and perpetrators confessed to horrendous acts Meanwhile the commissioners grappled with decisions that would not only apportion responsibility and grant or deny amnesty but also have a profound political and social impact To this highly charged controversial subject Dorothy Shea brings a rare combination of objectivity thoroughness and a firm grasp of both the principles and the political interests at stake She begins by investigating the origins of the TRC in South Africa's transition from apartheid to democracy and she examines the extent to which it learned from the experiences of earlier Latin American commissions Then she focuses on how the politics of the TRC were played out in issues such as amnesty reparations and prosecutions Her report on the TRC offers a generally positive assessment and explains not only how South Africa measured up but also why Finally Shea draws lessons from the TRC experience that may help to inform future efforts to shape and establish truth commissions in other transitional societies

Truth and Reconciliation in South Africa Hugo van der Merwe, Audrey R. Chapman, 2008-02 Of the truth commissions to date the South African Truth and Reconciliation Commission TRC has most effectively captured public attention throughout the world and provided the model for succeeding bodies Although other truth commissions had preceded its establishment the TRC had a far more expansive mandate to go beyond truth finding to promote national unity and reconciliation to facilitate the granting of amnesty to those who made full factual disclosure to restore the human and civil dignity of victims by providing them an opportunity to tell their own stories and to make recommendations to the president on measures to prevent future human rights violations

The Limits of Transition: The South African Truth and Reconciliation Commission 20 Years on Mia Swart, Karin van Marle, 2017-08-28 The South African Truth and Reconciliation Commission was a noble attempt to begin to address the continuing traumatic legacy of Apartheid This interdisciplinary collection critiques the work of the TRC 20 years since its establishment Taking the paralysing political and social crises of the mid 1990s in South Africa as starting point the book contains a collection of responses to the TRC that considers the notions of crisis judgment and social justice It asks whether the current political and social crises in South Africa are linked to the country's post apartheid transitional mechanisms specifically the TRC The fact that the material conditions of the lives of many Apartheid victims have not improved forms a major theme of the book Collectively the book considers the unfinished business of the TRC

Looking Back, Reaching Forward Charles Villa-Vincencio, Wilhelm Verwoerd, 2000-02-15 The Truth and Reconciliation Commission chaired by Archbishop Desmond Tutu is widely recognized as a defining experience in South Africa's transition to democratic and non racial rule This anthology uniquely combining contributions by some of the Commissioners and their staff those who bore witness and scholars reviews the context in which

the TRC did its work

The South African Truth Commission Kenneth Christie, 2000 Over the last 30 years many political transitions from authoritarian regimes and dictatorial political systems have been accompanied by Truth Commissions Since 1974 there have been over 20 of these Commissions established in countries as diverse as Argentina Chile Uruguay Bolivia El Salvador Ethiopia the Philippines and Germany among others Perhaps the most important Truth Commission of our time is the South African one which also seeks to act as a mechanism for reconciliation in a divided society The South African conflict was extremely long and violent its victims suffered traumatic experiences and in part one of the Commission functions is to allow their story to be told This book tries to examine the Truth Commission in South Africa and the issues that surround it assessing different versions of the South African past and the complex negotiations leading to the establishment of the Commission and the complex politics of amnesty justice and nation building

Reconciliation Discourse Annelies Verdoolaege, 2008 This volume is a research monograph analysing the South African Truth and Reconciliation Commission TRC from an ethnographic linguistic point of view The central proposition of this book is that the TRC can be regarded as a mechanism that leads to the hegemony of specific discourses thus exercising power The analysis illustrates how through a certain type of reconciliation discourse constructed at the TRC hearings a reconciliation oriented reality took shape in post TRC South Africa Basically the study points to the long term implications a truth commission can exert on a traumatised post conflict society The book is unique on several levels TRC discourse is explored in depth on the basis of personal stories from TRC testifiers a combination of Poststructuralist and Critical Discourse Analysis approaches form the theoretical foundations and an extensive bibliography provides an impressive database of TRC publications

Truth & Reconciliation in South Africa Charles Villa-Vicencio, Fanie Du Toit, 2006 This series of articles by leading researchers activists and government officials describes the response of government and other agencies to the unfinished business of the Truth and Reconciliation Commission It also reflects on the role of the media art and cultural exponents who grappled with South Africa s past

Williams, 2024-12-27 In this book leading scholar Andrew J Williams examines contemporary liberal thinking on the ending of wars and puts it into its historical context Using a vast range of archival material he examines the main strategies used by liberal states to consolidate their gains in the aftermath of war and prevent conflict re occurring Considering historical wars from the nineteenth century to the withdrawal from Afghanistan in 2021 and the war in Ukraine since 2022 Williams explores the continuities and changes within western liberalism in response to war and the encouragement of peace These include in recent times the emergence of neoliberalism a growing revulsion against humanitarian intervention and the evolution of legal attempts to control illiberal regimes He shows how liberalism and the articulation of international norms and institutions sprang out of historical traditions linked to colonialism but also out of a desire to promote liberty and justice He examines the attitudes and practices that have distorted liberalism s essentially emancipatory nature into one that has encouraged hubris in foreign policy and an increasingly divisive set of economic political and social policies He suggests that a new liberal impulse to encourage the spread of democracy and international justice is possible one that returns to a more realistic approach to intervention in international conflicts The book will appeal to scholars and students of war conflict and political theory interested in the historical perceptions at the heart of many of the mistakes made by liberalism in the ending of wars It will also give hope to those who still believe that liberalism can be the organising feature of a just and equitable world order *Truth And Lies* Jillian Edelstein, 2014-05-22 The Truth and Reconciliation Commission was established to

investigate more than thirty years of human rights violations under apartheid Jillian Edelstein returned to her native South Africa to photograph the work of this committee and was present at some of the most important hearings including that of Winnie Mandela In *Truth and Lies* portraits of those who testified are accompanied by their stories The result is a powerful and moving record of the atrocities committed under apartheid and the fight to make the truth known **Liberalism and War** Andrew Williams, 2013-04-03 Military power is now the main vehicle for regime change The US army has been used on more than 30 different occasions in the post Cold War world compared with just 10 during the whole of the Cold War era Leading scholar Andrew Williams tackles contemporary thinking on war with a detailed study on liberal thinking over the last century about how wars should be ended using a vast range of historical archival material from diplomatic other official and personal papers which this study situates within the debates that have emerged in political theory He examines the main strategies used at the end and in the aftermath of wars by liberal states to consolidate their liberal gains and to prevent the re occurrence of wars with those states they have fought This new study also explores how various strategies revenge restitution reparation restraint retribution reconciliation and reconstruction have been used by liberal states not only to

defeat their enemies but also transform them This is a major new contribution to contemporary thinking and action This book will be of great interest to all students and scholars of politics international relations and security studies **Principles of**
