Sovereignty An Inquiry Into Political Good:

Sovereignty Bertrand de Jouvenel, 1957 **Sovereignty** Bertrand de Jouvenel, 1957 De aanval op de natiestaat Thierry Baudet, 2012-08-17 De Europese Unie en de open grenzen hebben de nationale staat verzwakt De soevereiniteit van het parlement wordt steeds verder ondergraven en de nationale identiteit verwatert In de tweede helft van de twintigste eeuw is in alle West Europese landen een sluipende aanval gedaan op de natiestaat In een verrassende kritiek op de naoorlogse elites laat Thierry Baudet zien dat zonder nationale soevereiniteit de democratische rechtsstaat niet kan functioneren De aanval op de natiestaat neemt de lezer mee vanaf de oorsprong van moderne staten in de zestiende en zeventiende eeuw tot aan de brandende kwesties van nu immigratie populisme en de toekomst van de EU In deze speciale tiende druk zijn twee nieuwe voorwoorden toegevoegd een van de Franse essayist Pascal Bruckner en een van de Britse filosoof Roger Scruton Dr mr Thierry Baudet 1983 is een van de meest markante stemmen in het hedendaagse debat Hij publiceerde zes non fictieboeken over filosofie politiek en geschiedenis een boek over klassieke muziek en in september 2014 een roman De aanval op de natiestaat werd genomineerd voor de Socrates Wisselbeker voor het beste filosofieboek van 2012 Er werden inmiddels meer dan 10 000 exemplaren van verkocht **The Reign of God** Jonathan Cole, 2022-07-28 The Reign of God constitutes the first detailed and systematic critical engagement with Oliver O Donovan s political theology It argues that O Donovan s theological account of political authority is not tenable on the basis of exegetical and methodological problems The book goes on to demonstrate a way to refine O Donovan s theology of political authority by incorporating insights from his earlier work in moral theology This can provide a cogent basis for thinking that the Christ event redeems the natural political authority embedded in the created order and inaugurates its new historical *bene esse* in the form of Christian liberalism *Marine Hydrothermal Systems and the Origin of Life* SCOR Working Group 91, 1992-11-30 Research of the origins of life in connection with a marine environment started at the end of the seventies when the black smokers in the Pacific were discovered and the Red Sea deep hydrothermal brines were found to be a fruitful environment for abiotic synthesis of life precursors For a while this research was categorised under the heading chemistry but in less than a decade the topic became fully integrated into the science of oceanography The Scientific Committee on Oceanographic Research SCOR initiated Working Group 91 Chemical Evolution and Origin of Life in Marine Hydrothermal Systems This volume contains the final report of this working group **Sovereignty** Martha Thorne Wheeler, 1957 **The World's Constitution** Adam K. Webb, 2025-01-02 Global governance is tightening and foreshadows that world state formation will become a live political issue in this century Some observers treat it as inevitable amid the urgency of global issues They foresee a technocratic scaling up of the model of state authority that has prevailed at the national level for over two hundred years Many critics and members of the public around the world look askance at that prospect They rightly fear a moral vacuum of authority disconnected from the world s traditions and a concentration of power that would be damaging to liberty

or even dystopian in its upshot Still they often merely aim to stand athwart the scaling up of political institutions rather than actively trying to shape an alternative that can seize the global horizon The World s Constitution Spheres of Liberty in the Future Global Order offers a radically different vision of future world order that could work in a global space while shifting the balance of power from state back to society It draws on older resources in political thought both Western and non Western to upend mainstream notions of statehood and sovereignty that have been taken for granted for too long in the modern era It offers an original sphere pluralist framework that can reconcile liberty tradition and cosmopolitanism As a book rooted in the past but mindful of future constitutional and policy challenges it bridges ideas and real world implications with insights that cut across a wide range of topics from migration and social welfare to personal law systems and channels of representation It opens an exciting debate about global constitutional futures that is likely to become more salient over the next couple of generations The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

The Significance of Borders Thierry Baudet, 2012-05-25 For almost three quarters of a century the countries of Western Europe have abandoned national sovereignty as an ideal Nation states are being dismantled by supranationalism from above by multiculturalism from below This book explains why supranationalism and multiculturalism are in fact irreconcilable with representative government and the rule of law It challenges one of the most central beliefs in contemporary legal and political philosophy which is that borders are bound to disappear

The Great Chief Justice Charles F. Hobson, 1996 John Marshall remains one of the towering figures in the landscape of American law From the Revolution to the age of Jackson he played a critical role in defining the province of the judiciary and the constitutional limits of legislative action In this masterly study Charles Hobson clarifies the coherence and thrust of Marshall s jurisprudence while keeping in sight the man as well as the jurist Hobson argues that contrary to his critics Marshall was no ideologue intent upon appropriating the lawmaking powers of Congress Rather he was deeply committed to a principled jurisprudence that was based on a steadfast devotion to a science of law richly steeped in the common law tradition As Hobson shows such jurisprudence governed every aspect of Marshall s legal philosophy and court opinions including his understanding of judicial review The chief justice Hobson contends did not invent judicial review as many have claimed but consolidated its practice by adapting common law methods to the needs of a new nation In practice

his use of judicial review was restrained employed almost exclusively against acts of the state legislatures Ultimately he wielded judicial review to prevent the states from undermining the power of a national government still struggling to establish sovereignty at home and respect abroad BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *Sovereignty.
