## **Sovereignty An Inquiry Into The Political Good:**

**Sovereignty** Bertrand de Jouvenel, 2012-01-26 Bertrand de Jouvenel examines the relationship between the distribution of power and the creation of an ethical society      **Sovereignty** Bertrand de Jouvenel, 1957      Sovereignty Martha Thorne Wheeler, 1957      Sovereignty in Post-Sovereign Society Jiří Příbáň, 2016-03-09 Sovereignty marks the boundary between politics and law Highlighting the legal context of politics and the political context of law it thus contributes to the internal dynamics of both political and legal systems This book comprehends the persistence of sovereignty as a political and juridical concept in the post sovereign social condition The tension and paradoxical relationship between the semantics and structures of sovereignty and post sovereignty are addressed by using the conceptual framework of the autopoietic social systems theory Using a number of contemporary European examples developments and paradoxes the author examines topics of immense interest and importance relating to the concept of sovereignty in a globalising world The study argues that the modern question of sovereignty permanently oscillating between de iure authority and de facto power cannot be discarded by theories of supranational and transnational globalized law and politics Criticising quasi theological conceptualizations of political sovereignty and its juridical form the study reformulates the concept of sovereignty and its persistence as part of the self referential communication of the systems of positive law and politics The book will be of considerable interest to academics and researchers in political legal and social theory and philosophy      **The Oxford Companion to Comparative Politics** Joel Krieger, 2013 The two volume Oxford Companion to Comparative Politics fills a gap in scholarship on an increasingly important field within Political Science Comparative Politics the discipline devoted to the politics of other countries or peoples has been steadily gaining prominence as a field of study allowing politics to be viewed from a wider foundation than a concentration on domestic affairs would permit Comparativists apply various theories and concepts to analyze the similarities and differences between political units using the results of their research to develop causalities and generalizations Each of these theories and outcomes are thoroughly defined in the Companion as are major resultant conclusions those comparativists who have influenced the field in significant ways and politicians whose administrations have shaped the evaluation of contrasting governments Approximately 200 revised and updated articles from the Oxford Companion to Politics of the World would serve as a foundation for the set while over 100 new entries would thoroughly examine the field in a lasting more theoretical than current event based way New entries cover such topics as failed states Grand Strategies and Soft Power important updates include such countries as China and Afghanistan and issues like Capital Punishment Gender and Politics and Totalitarianism Country entries include the most significant nations to permit a focus on non time sensitive analysis In addition 25 1 000 word interpretive essays by notable figures analyze the discipline its issues and accomplishments Collectively entries promote deeper understanding of a field that is often elusive to non specialists

*Marine Hydrothermal Systems and the Origin of Life* SCOR Working Group 91, 1992-11-30 Research of the origins of life

in connection with a marine environment started at the end of the seventies when the black smokers in the Pacific were discovered and the Red Sea deep hydrothermal brines were found to be a fruitful environment for abiotic synthesis of life precursors For a while this research was categorised under the heading chemistry but in less than a decade the topic became fully integrated into the science of oceanography The Scientific Committee on Oceanographic Research SCOR initiated Working Group 91 Chemical Evolution and Origin of Life in Marine Hydrothermal Systems This volume contains the final report of this working group

The Reign of God Jonathan Cole,2022-07-28 The Reign of God constitutes the first detailed and systematic critical engagement with Oliver O Donovan s political theology It argues that O Donovan s theological account of political authority is not tenable on the basis of exegetical and methodological problems The book goes on to demonstrate a way to refine O Donovan s theology of political authority by incorporating insights from his earlier work in moral theology This can provide a cogent basis for thinking that the Christ event redeems the natural political authority embedded in the created order and inaugurates its new historical bene esse in the form of Christian liberalism

*The World's Constitution* Adam K. Webb,2025-01-02 Global governance is tightening and foreshadows that world state formation will become a live political issue in this century Some observers treat it as inevitable amid the urgency of global issues They foresee a technocratic scaling up of the model of state authority that has prevailed at the national level for over two hundred years Many critics and members of the public around the world look askance at that prospect They rightly fear a moral vacuum of authority disconnected from the world s traditions and a concentration of power that would be damaging to liberty or even dystopian in its upshot Still they often merely aim to stand athwart the scaling up of political institutions rather than actively trying to shape an alternative that can seize the global horizon The World s Constitution Spheres of Liberty in the Future Global Order offers a radically different vision of future world order that could work in a global space while shifting the balance of power from state back to society It draws on older resources in political thought both Western and non Western to upend mainstream notions of statehood and sovereignty that have been taken for granted for too long in the modern era It offers an original sphere pluralist framework that can reconcile liberty tradition and cosmopolitanism As a book rooted in the past but mindful of future constitutional and policy challenges it bridges ideas and real world implications with insights that cut across a wide range of topics from migration and social welfare to personal law systems and channels of representation It opens an exciting debate about global constitutional futures that is likely to become more salient over the next couple of generations The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

**Aspects of Political Theory** W.J. Stankiewicz,2020-03-06 First published in 1976 This study continues an endeavour whose aim was to use traditional concepts as a basis for the discussion of contemporary political predicaments The endeavour began with the publication of the symposium In Defense of Sovereignty 1969 Its long range goal is to consider under a common denominator relativism in

politics various aspects of theory such as the basic concepts discussed in the present essay together with more modern theories of democracy and the wider spectrum of political ideologies      Sovereignty. An Inquiry Into the Political Good. [An Expanded Version of the Original, with an Additional Chapter] Edouard Bertrand de Baron Jouvenel des Oursins,1957

**The Significance of Borders** Thierry Baudet,2012-05-25 For almost three quarters of a century the countries of Western Europe have abandoned national sovereignty as an ideal Nation states are being dismantled by supranationalism from above by multiculturalism from below This book explains why supranationalism and multiculturalism are in fact irreconcilable with representative government and the rule of law It challenges one of the most central beliefs in contemporary legal and political philosophy which is that borders are bound to disappear      **Sovereignty. An Inquiry Into the Political Good. Transl. [from the French] by J.F. Huntington ,1957      Sovereignty; An Inquiry Into the Political Good. Translated by J.F. Huntington** Bertrand de Jouvenel,1959      The Nature of Politics Bertrand de Jouvenel,1987      **The Journal of Conflict Resolution ,1957      Congressional Record ,1895      Remarks on the Use and Abuse of Some Political Terms** Sir George Cornwall Lewis,Sir Roland Knyvet Wilson,1877      **The Study of Government** George Helm Yeaman,1871      **Annual Report of the Illinois State Bar Association** Illinois State Bar Association,1879      **Proceedings of the Illinois State Bar Association ...** Illinois State Bar Association,1877
