Sovereignty And Symbol:

The Symbols of Sovereignty Brian Barker (O.B.E.),1979 *The Credibility of Sovereignty – The Political Fiction of a Concept* Elia R.G. Pusterla,2015-12-19 The book deeply analyses the bilateral relations between Switzerland and the European Union and their effect on the former's sovereignty in the context of Europeanisation This touches on philosophical debates on the complexity of sovereignty What sovereignty is at stake when talking about Swiss EU relations This issue not only faces the elusiveness of sovereignty as a concept but also the proliferation of hypocrisy on its presence within states The book encounters the deconstructionist hypothesis stating that there is nothing to worry about but the belief there is something to worry about Derrida's deconstruction of sovereignty allows indeed one to grasp the fictional essence of sovereignty based on the metaphysics of presence The presence of self positing sovereign ipseity is fictional since absent in the present but spectrally present in the belief of its presence to come Sovereignty is a matter of credibility or the credible promise of a normative statement to come Hence the book challenges the realist neorealist argument stating that states are credibly sovereign until proven otherwise and explains that the debate on state sovereignty calls for the unveiling of this hypocritical epistemology cunningly disguised as an objective presence Swiss EU relations thus become the cornerstone to not only theorise but also test sovereignty and deconstruct the two ontological and epistemological sides of the same coin or the modern hypocrisy of sovereignty This deconstruction constitutes the very problematic of any attempt to understand whether and how a state can be sovereign and solve the problem as to how to neutralise the difference and identify the difference between credible and incredible claims of sovereignty This problematic connects the theory and practice of sovereignty innovatively providing positivist evidence on the arguable credibility of the Swiss claim of sovereignty and confirming the presence of a theological dimension within politics **Symbolism 14** Rüdiger Ahrens,Klaus Stierstorfer,2014-12-12 Symbolic representation is a crucial subject for and a potent heuristic instrument of diaspora studies This special focus inquires into the forms and functions of symbols of diaspora both in aesthetic practice and in critical discourse analyzing and theorizing symbols from Shakespeare to Bollywood as well as in critical writings of theorists of diaspora What kinds of symbols and symbolic practices contributors ask are germane to the representation both emic and etic of diasporics and diasporas How are specific symbols and symbolic practices analyzed across the academic fields contributing to diaspora studies Which symbols and symbolic practices inform the academic study of diasporas sometimes unconsciously or without being remarked on To study these phenomena is to engage in a dialogue that aims at refining the theoretical and methodological vocabulary and practice of truly transdisciplinary diaspora studies while attending to the imperative of specificity that inheres in this emerging field The volume collects a range of analyses from social anthropology history and ethnography to literary and film studies all combining readings of individual symbolic practices with meta theoretical reflections **The Symbols of Sovereignty** Brian Barker,1979 ... *An Encyclopedia of Freemasonry and Its*

Kindred Sciences, Comprising the Whole Range of Arts, Sciences and Literature as Connected with the Institution Albert Gallatin Mackey, 1912 **Sovereignty in Ancient Indian Polity** Har Narain Sinha, 1938 *The History, Principles and Practice of Symbolism in Christian Art* Frederick Edward Hulme, 1899 *Sovereign Acts* Katherine A. Sovereign Acts explores how artists activists and audiences performed and interpreted sovereignty struggles in the Panama Canal Zone from the Canal Zone's inception in 1903 to its dissolution in 1999 In popular entertainments and patriotic pageants opera concerts and national theatre white U S citizens West Indian laborers and Panamanian artists and activists used performance as a way to assert their right to the Canal Zone and challenge the Zone's sovereignty laying claim to the Zone's physical space and imagined terrain By demonstrating the place of performance in the U S Empire's legal landscape Katherine A Zien transforms our understanding of U S imperialism and its aftermath in the Panama Canal Zone and the larger U S Caribbean world *The Place of Christ in Modern Theology* Andrew Martin Fairbairn, 1893 *Handbook of Christian Symbolism* William Audsley, George Ashdown Audsley, 1865 **House of Commons Debates, Official Report** Canada. Parliament. House of Commons, 1975 *An Encyclopædia of Freemasonry and Its Kindred Sciences* Albert Gallatin Mackey, 1920 *Sovereignty as Symbolic Form* Jens Bartelson, 2014-05-09 This book is a critical inquiry into sovereignty and argues that the meaning and functions performed by this concept have changed significantly during the past decades with profound implications for the ontological status of the state and the modus operandi of the international system as a whole Although we have grown accustomed to regarding sovereignty as a defining characteristic of the modern state and as a constitutive principle of the international system *Sovereignty as Symbolic Form* argues that recent changes indicate that sovereignty has been turned into something granted contingent upon its responsible exercise in accordance with the norms and values of an imagined international community Hence we need a new understanding of sovereignty in order to clarify the logic of its current usage in theory and practice alike and its connection to broader concerns of social ontology what kind of world do we inhabit and of what kind of entities is this world composed This book will be of interest to students of International Relations Critical Security and International Politics **Theology of the Westminster Symbols** Edward Dafydd Morris, 1900 **Spatial Practices**, 2018-06-26 The edited collection *Spatial Practices Territory Border and Infrastructure in Africa* presents research findings from the German Research Council's Priority Programme 1448 *Adaptation and Change in Africa* 2011-2018 At the heart of the volume are important new spatial practices that have emerged after the end of the Cold War in the fields of conflict climate change migration and urban development to name but a few and their ordering effects with regard to social relations These findings bear particular relevance for the co production of territorialities and sovereignties for borders and migrations as well as infrastructures and orders Contributors are Sabine Baumgart Andrea Behrends Marc Boeckler Martin Doeverspeck Ulf Engel Claudia Gebauer Karsten Giese Katharina Heitz Tokpa Shahadat Hossain Anna Höncke Gabriel Klaeger Kelly Si Miao Liang Andreas Mehler Felix Müller Detlef Müller Mahn

Symbolic Constitutionalization Marcelo Neves, 2022-03-31 The subject of this book is the social and political meaning of constitutional texts to the detriment of their legal concretization Focusing on the discrepancy between the hypertrophically symbolic function of constitutions and their insufficient legal concretization it offers a critical counterpoint to constitutional theory that treats constitutional texts as a panacea to solving political legal and social problems In contrast to the premises of Niklas Luhmann's systems theory regarding law and constitution in world's society symbolic constitutionalization is approached here in both a comprehensive and far reaching perspective Chapter 1 sets out the debate about symbolic legislation Chapter 2 explains the notion of symbolic constitutionalization as a problem embracing the whole legal system Chapter 3 approaches the issue in terms of allopoiesis of law characterizing it primarily as a problem in peripheral modernity and referring to the Brazilian experience The final chapter discusses the tendency to a symbolic constitutionalization of world society in the scope of a paradoxical peripheralization of the centre
