Sovereignty As Responsibility Conflict Management In Africa:

Sovereignty as Responsibility Francis M. Deng, Sadikiel Kimaro, Terrence Lyons, 2010-12-01 The authors assert that sovereignty can no longer be seen as a protection against interference but as a charge of responsibility where the state is accountable to both domestic and external constituencies. In internal conflicts in Africa sovereign states have often failed to take responsibility for their own citizens' welfare and for the humanitarian consequences of conflict, leaving the victims with no assistance. This book shows how that responsibility can be exercised by states over their own population and by other states in assistance to their fellow sovereigns. *Sovereignty as Responsibility* presents a framework that should guide both national governments and the international community in discharging their respective responsibilities. Broad principles are developed by examining identity as a potential source of conflict governance as a matter of managing conflict and economics as a policy field for deterring conflict. Considering conflict management, political stability, economic development and social welfare as functions of governance, the authors develop strategies, guidelines and roles for its responsible exercise. Some African governments such as South Africa in the 1990s and Ghana since 1980 have demonstrated impressive gains against these standards while others such as Rwanda, Somalia, Liberia, Nigeria and Sudan have failed. Opportunities for making sovereignty more responsible and improving the management of conflicts are examined at the regional and international levels. The lessons from the mixed successes of regional conflict management actions such as the West African intervention in Liberia, the East African mediation in Sudan and international efforts to urge talks to end the conflict in Angola indicate that friends and neighbors outside the state in conflict have important roles to play in increasing sovereign responsibility.

Approaching conflict management from the perspective of the responsibilities of sovereignty **Sovereignty as Responsibility** Francis M. Deng, Francis Mading Deng, Special Advisor on the Prevention of Genocide Francis M. Deng, Sadikiel Kimaro, Terrence Lyons, Rothchild Donald, Donald Rothchild, I. William Zartman, 1996. Considering conflict management, political stability, economic development and social welfare as functions of governance, they also develop strategies, guidelines and roles for its responsible exercise. *I William Zartman: A Pioneer in Conflict Management and Area Studies* I. William Zartman, 2019-05-13. The work draws on wide ranging area analysis to develop inductively new concepts and approaches for further use in explanation and application. Divided into two parts, it begins with analysis of revolution and socio-political unrest followed by models of ethnic conflict and elite circulation in developing societies. It presents the cultural dialectic present in Islam. It then lays out the patterns of mediation and negotiation in managing and resolving conflict, culminating with an analysis of intractables. Part two on governance lays out the nature of world order, cooperation and conciliation. It then turns to the challenges of identity, ideology and interest with some specific attention to the nature of borders and borderlands and focuses on governance as conflict management and as negotiation. This book encompasses a new analysis of a neglected part of International Relation, the prevention and management of conflict. The

book confronts sources and patterns of contentious politics with systems and methods of governance The book lays out a comprehensive conceptualization of the process of conflict management and negotiation including questions of when as well as how **Responding to Mass Atrocities in Africa** Raymond Kwun-Sun Lau,2021-12-14 This book explores the relationship between the Responsibility to Protect R2P and the International Criminal Court ICC challenging the assumption that they are always mutually reinforcing or complementary and examining instead the many tensions which arise between the immediate imperative of saving lives and the more long term prospect of punishing perpetrators and preventing future conflicts through deterrence Around the world audiences in the mid 1990s watched the mass atrocities unfolding in Rwanda and Srebrenica in horror and disbelief Emerging from these disasters came an international commitment to safeguard and protect vulnerable communities as laid out in the R2P principle and an international responsibility to punish perpetrators with the establishment of the ICC The book provides context independent proposals for resolving contradictions between the two principles suggesting that focusing on timing and sequencing in invoking international R2P and ICC actions could facilitate the easing of tensions Drawing on examples from Uganda Kenya and Darfur the book applies International Relations concepts and theories in order to deepen our understanding of international responses to mass atrocities Ultimately the book concludes that a Protection First Justice Later sequence approach is necessary for managing the tension and facilitating more effective and consistent international responses This book makes an important contribution to discussions and debates surrounding international responses to genocide and mass atrocities It will be of special interest to scholars students and policymakers in International Relations Global Governance African Studies International Development Human Rights and International Criminal Law

What does responsibility mean in International Relations IR This handbook brings together cutting edge research on the critical debates about responsibility that are currently being undertaken in IR theory This handbook both reflects upon an emerging field based on an engagement in the most crucial theoretical debates and serves as a foundational text by showing how deeply a discussion of responsibility is embedded in broader questions of IR theory and practice Contributions cover the way in which responsibility is theorized across different approaches in IR and relevant neighboring disciplines and demonstrate how responsibility matters in different policy fields of global governance Chapters with an empirical focus zoom in on particular actor constellations of emerging states international organizations political movements or corporations or address how responsibility matters in structuring the politics of global commons such as oceans resources or the Internet Providing a comprehensive overview of IR scholarship on responsibility this accessible and interdisciplinary text will be a valuable resource for scholars and students in many fields including IR international law political theory global ethics science and technology area studies development studies business ethics and environmental and security governance

Constructing Global Order Amitav Acharya, 2018-03-22 For a long time international relations scholars have adopted a narrow view of what is global order who are its makers and managers and what means they employ to realize their goals Amitav Acharya argues that the nature and scope of agency in the global order who creates it and how needs to be redefined and broadened Order is built not by material power alone but also by ideas and norms While the West designed the post war order the non Western countries were not passive They contested and redefined Western ideas and norms and contributed new ones of their own making This book examines such acts of agency especially the redefinitions of sovereignty and security shaping contemporary world politics With the decline of Western dominance ideas and agency from the Rest may make it possible to imagine and build a truly global order

Babacar Diouf, 1998 This thesis examines the future of conflict resolution in Africa and the role of the Organization of African Unity OAU in the process based on the 1993 OAU's Mechanism MCPMR It argues that in Africa historical evidence suggests a continuing pattern of internal conflicts aggravated by destabilization attempts It also seeks to demonstrate that for various reasons the OAU has been weak in this type of conflict This opens two options One making the OAU irrelevant is to maintain the present track and end up between an evil and a lesser evil scenarios The first is the intervention by a regional power using a sub regional organization Here the risk is to see the regional power in the absence of a watchdog use the organization for its own agenda as in the Nigerian interventions in Liberia and Sierra Leone with the ECOWAS The other scenario is the intervention by a country or group of countries for purely selfish reasons to change another country's political leadership as in the Angolan interventions in Zaire and Congo The second option less likely without substantial reforms is for the OAU to use the support available from the international community to establish itself as a forum an organizer a legitimizer and a watchdog **African Reckoning** Francis M. Deng, Terrence Lyons, 2001-06-07 This book investigates how changing norms of sovereignty may promote better governance in Africa It begins by tracing the evolution of the concept of sovereignty and how in the post Cold War era sovereignty has been redefined to emphasize the responsibility of the state to manage conflict and protect human rights African Reckoning includes assessments of how state actors in Africa measure up to the norms inherent in the notion of sovereignty as responsibility The book also examines the question of accountability at the regional and international levels The authors conclude that since the power of oppressed people to hold their governments accountable is very limited the international community has a responsibility to provide victims of internal conflict and gross violations of human rights with essential protection and assistance Accordingly the book expounds on the normative principles of responsible sovereignty international mechanisms and strategies for their enforcement and empirical evidence about the performance of governments as measured by the requirements of responsible sovereignty Contributors include Richard Falk Abdullahi Ahmed An Naim James Rosenau Goran Hyden Michael Chege and John D Steinbruner
