Sovetskaia Neftianaia Promyshlennost V 19211928 Godakh:

Power and the Politics of Oil in the Soviet South Caucasus Sara G. Brinegar, 2023-12-14 Sara G Brinegar's book is the first to show how the politics of oil intersected with the establishment of Soviet power in the Caucasus it reveals how the Soviets cooperated and negotiated with the local elite rather than merely subsuming them More broadly Power and the Politics of Oil in the Soviet South Caucasus demonstrates not only how the Bolsheviks understood and exploited oil but how the needs of the industry shaped Bolshevik policy Brinegar reflects on the huge geopolitical importance of oil at the end of World War I and the Russian Civil War She discusses how the reserves sitting idle in the oil fields of Baku the capital of the newly independent Azerbaijan Democratic Republic and the center of the fallen empire's oil reserves were no exception to this With the Soviet leadership in Moscow intent on capturing the fields in the first few months of 1920 this book examines the Soviet project to rebuild Baku's oil industry in the aftermath of these wars and the political significance of oil in the formation of the Soviet Union

Cold War Energy Jeronim Perović, 2017-02-28 This book examines the role of Soviet energy during the Cold War Based on hitherto little known documents from Western and Eastern European archives it combines the story of Soviet oil and gas with general Cold War history This volume breaks new ground by framing Soviet energy in a multi national context taking into account not only the view from Moscow but also the perspectives of communist Eastern Europe the US NATO as well as several Western European countries namely Italy France and West Germany This book challenges some of the long standing assumptions of East West bloc relations as well as shedding new light on relations within the blocs regarding the issue of energy By bringing together a range of junior and senior historians and specialists from Europe Russia and the US this book represents a pioneering endeavour to approach the role of Soviet energy during the Cold War in transnational perspective
