## **Soviet Defectors The Kgb Wanted List:**

Soviet Defectors Vladislav Krasnov, 2018-04-01 The topic of defection is taboo in the USSR and the Soviets are anxious to silence downplay or distort every case of defection Surprisingly Vladislav Krasnov reports the free world has often played along with these Soviet efforts by treating defection primarily as a secretive matter best left to bureaucrats As a result defectors human rights have sometimes been violated and U S national security interests have been poorly served **Soviet Defectors** Riehle Kevin Riehle, 2020-07-31 An analysis of the insider information and insights that over eighty Soviet intelligence officer defectors revealed during the first half of the Soviet period Identifies 88 Soviet intelligence officer defectors for the period 1917 to 1954 representing a variety of specializations the most comprehensive list of Soviet intelligence officer defectors compiled to date Shows the evolution of Soviet threat perceptions and the development of the main enemy concept in the Soviet national security system Shows fluctuations in the Soviet recruitment and vetting of personnel for sensitive national security positions corresponding with fluctuations in the stability of the Soviet government Compiles for the first time corroborative primary sources in English Russian French German Finnish Japanese Latvian Norwegian Portuguese Spanish and Swedish When intelligence officers defect they take with them privileged information and often communicate it to the receiving state This book identifies a group of those defectors from the Soviet elite intelligence officers and provides an aggregate analysis of their information to uncover Stalin's strategic priorities and concerns thus to open a window into Stalin's impenetrable national security decision making This book uses their information to define Soviet threat perceptions and national security anxieties during Stalin's time as Soviet leader **Federal Government's Handling of Soviet and Communist Bloc Defectors** United States. Congress. Senate. Committee on Governmental Affairs. Permanent Subcommittee on Investigations, 1988 *Shots in the Dark* Jadwiga Biskupska, Sara B. Castro, 2025-09-02 Brings together geographies and methodologies often kept apart by the difficulties of researching such a broad ranging topic as the war *Shots in the Dark* offers cutting edge scholarship across different subfields in World War II history revealing new insights into how this crucial conflict was planned experienced and fought Twelve chapters demonstrate the broad scope of wartime innovation and how the war functioned as a global turning point driving change at all levels of human society from government institutions to individual identities Contributors collaborated in a vibrant workshops series sponsored by the North American branch of the Second World War Research Group SWWRGNA an organization that emerged to nurture scholarship on the global war and unite scholars fragmented in narrower regional and methodological stovepipes to consider the war as a whole The SWWRGNA and this volume showcase the work of diverse historians across subfields operational cultural gender social intelligence and diplomatic history This approach exposes the Second World War as a catalyst for overlapping global changes that revolutionized the world after 1945 These scholars reveal continuities and parallels in wartime experiences that would remain invisible in narrowly focused projects The volume

establishes three frameworks for understanding and interpreting changes the war provoked 1 institutional adaptation 2 totalization or the militarization of civilians and 3 cultural transformation Each of the three frameworks is explored from four vantage points Geographies are deliberately contrasted within each framework to examine the broad scope of that level of war driven change
