

The Futurists

Anna M. Lawton, Herbert Eagle

The Futurists:

Back to the Futurists Elza Adamowicz, Simona Storch, 2015-11-01 In 1909 the Italian poet Filippo Tommaso Marinetti's Founding Manifesto of Futurism was published on the front page of *Le Figaro*. Between 1909 and 1912 the Futurists published over thirty manifestos celebrating speed and danger, glorifying war and technology and advocating political and artistic revolution. This collection of essays aims to reassess the activities of the Italian Futurist movement from an international and interdisciplinary perspective, focusing on its activities and legacies in the field of poetry, painting, sculpture, theatre, cinema, advertising and politics. The essays offer exciting new readings in gender, politics, aesthetics, historiography, intermediality and interdisciplinarity. They explore the works of major players of the movement as well as its lesser-known figures and the often critical impact of Futurism on contemporary or later avant-garde movements such as Cubism, Dada and Vorticism. The publication will be of interest to scholars and students of European art, literature and cultural history as well as to the informed general public.

Marisa Mori and the Futurists Jennifer Griffiths, 2023-01-12 This book introduces a compelling new personality to the modernist canon: Marisa Mori (1900-1985), who became the only female contributor to *The Futurist Cookbook* (1932) with her recipe for Italian Breasts in the Sun. Providing something more complex than a traditional biographical account, Griffiths presents a feminist critique of Mori's art, converging on issues of gender, culture and history to offer new critical perspectives on Italian modernism. If subsequently written out of modernist memory, Mori was once at the center of the Futurism movement in Italy, yet she worked outside the major European capitals and fluctuated between traditional figurative subjects and abstract experimentation. As a result, her in-between pictures can help to rethink the margins of modernism. By situating Mori's most significant artworks in the critical context of interwar Fascism and highlighting her artistic contributions before, during and after her Futurist decade, Griffiths contributes to a growing body of knowledge on the women who participated in the Italian Futurist movement. In doing so, she explores a woman artist's struggle for modernity among the Italian Futurists in an age of Fascism.

The Futurists Alvin Toffler, 1972 Textbook comprising interdisciplinary research readings on the future, covers the social implications of technological change, ecological and social change, the forecasting of events, the patterns of environmental degradation etc.
