Concepts of Philosophy in Asia and the Islamic World Raji C. Steineck,Ralph Weber,Robert Gassmann,Elena Lange,2018-05-07 The contributions to Concepts of Philosophy in Asia and the Islamic World reflect upon the problems implied in the received notions of philosophy in the respective scholarly literatures They ask whether and for what reasons a text should be categorized as a philosophical text or excluded from the canon of philosophy and what this means for the concept of philosophy The focus on texts and textual corpora is central because it makes authors expose their claims and arguments in direct relation to specific sources and discourages generalized reflections on the characteristics of for example Japanese culture or the Indian mind The volume demonstrates that close and historically informed readings are the sine qua non in discussing what philosophy is in Asia and the Islamic world just as much as with regard to Western literature Contributors are Yoko Arisaka Wolfgang Behr Thomas Fröhlich Lisa Indraccolo Paulus Kaufmann Iso Kern Ralf Müller Gregor Paul Lisa Raphals Fabian Schiffer Ori Sela Rafael Suter Christian Uhl Viatcheslav Vetrov Yvonne Schulz Zinda and Nicholas Zufferey **Een bedachtzame beeldenstorm** W. van den Berg,1999 **Les Industries lithiques taillées de Franchthi (Argolide, Grèce), Volume 3** Catherine Perlès,2018-10-26 This fascicle is the thirteenth in the series of Level One publications of the excavations at Franchthi Cave and is the third and final installment of the report on the site's chipped stone industries The objective of Catherine Perlès's study is to make sense of the chronology of the site in its economic technological and typological dimensions All phases of the Neolithic are represented at Franchthi Cave Rich with more than 3 000 reconstructed pieces this study offers a representative and technical typology that is unequalled today The first part of the analysis offers diagnostic elements to facilitate comparisons between the lithic sequence and surface dating and is more descriptive than interpretive The second part is dedicated to a step by step analysis of the Franchthi material in a well defined chrono-stratigraphical framework The third and most interpretive portion of the study addresses itself more specifically to those who are interested in the socio-economic organizational problems of Neolithic societies Excavations at Franchthi Cave Greece Thomas W Jacobsen editor with Karen D Vitelli **The 8th Congress for the International**
