South Wales Miners Glowyr De Cymru A History Of The South Wales Miners Federation 19141926:

South Wales Miners: Glowyr de Cymru Robert Page Arnot, 2023-07-14 First published in 1975 South Wales Miners starts with the War of Empires when nearly 50 000 Welsh miners almost one fifth of the total manpower of their coalfield responded to the call and voluntarily enlisted in the British armed forces The author uncovers how the coalowners in the meantime took advantage of the war emergency to deny the remaining miners a fair recompense for their toil and of the bitter strife that followed The book tells the story of what led up to the General Strike and here the author uses hitherto hidden sources of information The picture is revealed of what was a virtual conspiracy between the Baldwin Churchill Government and the mineowners not only to cut wages and lengthen hours but to cripple British trade unionism When the miners held out through a seven month lockout the efforts of these highly placed conspirators recoiled on their own heads and on the whole economy of British Empire This book will be of interest to students of history labour studies economics and political science

Strikes and Solidarity Roy A. Church, Quentin Outram, 2002-05-09 In this important contribution to the study of industrial relations Roy Church and Quentin Outram present research into the strike activity of British coalminers from the late nineteenth century to the mid 1960s The authors consider not only the major national strikes and lock outs which made the industry a byword for industrial militancy but also the multitude of small scale strikes which formed a routine part of British colliery lives *Strikes and Solidarity* first published in 1998 is multi disciplinary in approach and views coalfield conflict from the perspectives offered by sociologists industrial relations specialists and economists as well as social and economic historians Church and Outram have successfully blended quantitative and qualitative investigations to explain the long standing issues presented by industrial relations in the coalfields

Towards a Comparative History of Coalfield Societies Andy Croll, 2017-05-15 Few areas of labour history have received as much attention as the coal industry with miners often finding themselves at the centre of studies on working class political and industrial history Yet whilst much has been written about the struggles of miners and their unions in particular countries their national confrontations and political organization much less work has been done on the regional communities and how they related both to the national and international picture The central theme of this volume is to transcend such over arching national models and to focus instead on local coal mining societies which can then be compared and contrasted to similar communities elsewhere In so doing the book is able to tackle a number of familiar labour history themes in a more nuanced way exploring issues of political activism and class relationships from the perspectives of gender ethnicity race and specific localized cultural traditions As the chapters in this volume illustrate such an approach can offer rich and often surprising conclusions in many cases challenging the accepted notion of miners as the vanguard of militant working class political activism Adopting a regional approach that compares coalfield communities from five continents this volume reflects coalfield experiences on a truly global scale By looking at what made communities unique as well as what they shared in common a much fuller understanding of the

workplace neighbourhood family identity and political organization is possible Underlining the strong connections between politics community and identity this work emphasizes the challenges and opportunities available to labour historians pushing forward the boundaries of the discipline in new and exciting ways *The History of the British Coal Industry* Michael Walter Flinn, 1984 This volume studies the decline of a staple industry at a time of worldwide upheaval caused by war and economic slump In 1913 British coalmining was at the height of its achievement and prosperity by 1946 it was an ominous symbol of twentieth century Britain s inability to adapt to technological and economic change and its social consequences Written in the light of industrial and government records this study gives full weight to the political aspects of economic decision making and economic change It demonstrates the extent to which the problems of the coal industry were and still are deeply rooted in its social political and economic history It is also a classic case study of inflexibility in British industry Merthyr Joe England, 2019-08-15 For most of the nineteenth century Merthyr Tydfil was the largest urban settlement Wales had ever seen It was the Iron Capital of the world It was as the title of Merthyr native Joe England s magnificent history proclaims the Crucible of Modern Wales It was Merthyr that foretold the economic and social transformation of Welsh life and Merthyr that excited the cultural and political furor which was to revolutionize industry and society throughout the iron and coal townships of South Wales It was Merthyr from the armed rising of 1831 to the electoral radicalism of 1868 and 1900 that led the way towards democracy and civic advancement in the face of material degradation and high handed repression But as Joe England underlines in a magisterial combination of scholarly synthesis and original research it is Merthyr s small middle class of commerce trade and the professions that must be given much of the credit for reformation even amongst the titanic clashes between the Iron masters and their workers as it wrought a measure of control for a politics which would tackle the core concerns of health welfare and security This volume brings the whole epic history of Merthyr from 1760 no 1912 into the focus of a fresh and utterly convincing perspective For Modern Wales see Merthyr in a book which is a triumph of intellectual passion *The Red International of Labour Unions (RILU) 1920 - 1937* Reiner Tosstorff, 2016-09-07 The Red International of Labour Unions RILU Russian abbreviation Profintern was a central instrument for the spreading of international communism during the inter war period This comprehensive and scholarly history of the organisation based on extensive research in the former communist archives in Moscow and East Berlin sheds significant light on the international trade union movement of the period Tosstorff shows how the RILU began as a revolutionary alliance of syndicalists and communists in defiance of the social democratic International Federation of Trade Unions His text presents a full account of the organisation s main stages the decline of the revolutionary wave after World War One after which many syndicalists left and others were integrated into the communist parties the continuation of the RILU as an international communist apparatus and its dissolution in 1936 7 as part of communism s popular front policy First published in German as Profintern Die Rote Gewerkschaftsinternationale 1920 1937 by Ferdinand Sch nigh Paderborn in 2004 **From Labouring to Learning**

Michael R.M. Ward,2016-04-29 Highly Commended in the Society of Educational Studies Book Prize This book explores how economic changes and the growing importance of educational qualifications in a shrinking labour market particularly effects marginalized young men It follows a group of young working class men in a de industrial community and challenges commonly held representations that often appear in the media and in policy discourses which portray them as feckless out of control educational failures and lacking aspiration Ward argues that for a group of young men in a community of social and economic deprivation expectations and transitions to adulthood are framed through the industrial legacy of geographically and historically shaped class and gender codes These codes have an impact on what it means to be a man and what behaviour is deemed acceptable and what is not Historical Studies in Industrial Relations ,2006 *South Wales Miners* Robert Page Arnot,1975 Llafur ,1979 **Bibliography of the British Coal Industry** Great Britain.
