## **South Yorkshire Coalfield:**

**The South Yorkshire Coalfield** Alan Hill,2001 Coal has been mined in South Yorkshire for hundreds of years Today little remains of an industry that employed many thousands This publication traces the development of the mines from before 1850 through to nationalization and the formation of the NCB

**The History of The Great Northern Railway** Charles H. Grinling,2018-12-14 Published in 1903 this book provides a complete account of the origin and development of the Great

Northern Railway Company from its inception to the year 1802 a period of around 60 years

*Work and Play* David Proudlove,2024-10-21 What role has industry played in the growth and development of English football What were the origins of some of the country's most

famous clubs Do the links between industry and football still endure today Work and Play The Industrial Roots of English

Football takes a look at the roots of some of English football's most famous clubs and how the relationship between industrial

communities and football clubs still survives at a local level throughout the semi professional and grassroots game Writer

David Proudlove visits post industrial cities towns and villages around the country examining the places and facilities

including grounds and former grounds that sustain clubs that were born as works teams He talks to supporters volunteers

and club officials while sharing his own experiences and celebrates the continued survival of these clubs in this fascinating

exploration of the ties between football and industry

**Managing Industrial Decline** Michael Dintenfass,1992 Managing

Industrial Decline examines the dramatic decline of the British coal industry through the lens of comparative business history

challenging the prevailing belief that the industry's decline was due primarily to global economic factors and instead

demonstrating that entrepreneurial failings of individual coal firms contributed significantly to the problem Through a

comparative analysis of company histories Dintenfass shows how the full range of business operations at British coal firms

including labor management policies technological choices and marketing practices affected their performance The histories

of individual firms demonstrate that the managements could improve productivity increase sale prices and sustain

profitability even as the coal trade succumbed to cyclical depression and secular decline According to Dintenfass

comparisons between the individual firms and the regional coal industries to which they belonged show that neighboring

firms were slow to introduce the modest innovations that the successful firms pioneered Since there were few barriers to the

implementation of these strategies it appears that Britain's coal masters miscalculated their costs and benefits contributing

to the problem by failing to adopt inexpensive and accessible second best solutions to production and commercial problems

Managing Industrial Decline breaks new ground in the field of business history and restores entrepreneurship to its proper

place in the analysis of industrial decline

*History in Public Space* Joanna Wojdon,Dorota

Wiśniewska,2024-08-05 This book focuses on various manifestations of history in public spaces in the physical ones of various historical times and geographical places as well as in the virtual world. It discusses how the spaces have been shaped and reshaped by whom and for what not always laudable purposes and raises pragmatical and ethical questions for both research and practical activities in the field. By combining both micro and global perspectives the universal role that history plays in spaces created by and for as well as the factors determining its usages is revealed. The authors are rooted in specific national contexts Canadian or American Ukrainian or Polish British or Irish German or Luxembourgish Korean or Brazilian and the case studies are varied including large cities and small towns city centers and godforsaken cemeteries but the narratives built on these cases go beyond when they deal with issues such as decoding history and its meanings in public spaces doing history in public spaces and observing changes in manifestations of history in public spaces. This volume is an essential resource for anyone interested in the relationship between history and public space in a global perspective
