Sovereignty Of Art Aesthetic Negativity In Adorno And Derrida:

The Sovereignty of Art Christoph Menke, Thomas McCarthy, 1998 Recent discussions of aesthetics whether in the hermeneutic or the analytic tradition understand the place of art and aesthetic experience according to a model of autonomy as just one among the many modes of experience that make up the realm of reason situated beside the other spheres of value In contrast Theodor Adorno and Jacques Derrida view art and aesthetic experience as a medium for the dissolution of nonaesthetic reason an experientially enacted critique of reason Art is not only autonomous following its own law different from nonaesthetic reason but sovereign it subverts the rule of reason In this book Christoph Menke attempts to explain art s sovereign power to subvert reason without falling into an error common to Adorno s negative dialectics and Derrida s deconstruction The error which already appeared in romanticism is to conceive of the sovereignty of art as reflecting the superiority of its knowledge For art entails no knowledge and its negativity toward reason cannot be articulated as an insight into the nature of reason art is sovereign not despite but because of its autonomy Menke brings to his arguments a firm grounding in both philosophy and literary studies as well as familiarity with German French and American sources The Event of the Thing Michael Marder, 2009-01-01 The Event of the Thing is the most complete examination to date of Derrida s understanding of thinghood and its crucial role in psychoanalysis ethics literary theory aesthetics and Marxism

Philosophical Aesthetics and Samuel Beckett Andrea Oppo, 2008 This book examines the role of Samuel Beckett in contemporary philosophical aesthetics primarily through analysis of both his own essays and the various interpretations that philosophers especially Adorno Blanchot Deleuze and Badiou have given to his works The study centres around the fundamental question of the relationship between art and truth where art as a negative truth comes to its complete exhaustion as Deleuze terms it by means of a series of endgames that progressively involve philosophy writing language and every individual and minimal form of expression The major thesis of the book is that at the heart of Beckett s philosophical project this aesthetics of truth turns out to be nothing other than the real subject itself within a contradictory and tragic relationship that ties the Self Voice to the Object Body Yet a number of questions remain open What or who lies behind this process What is left of the endgame of art and subjectivity Finally what sustains and renders possible Beckett s paradoxical axiom of the impossibility to express alongside the obligation to express By means of a thorough overview of the most recent criticism of Beckett this book will try to answer these questions **Modernism and Coherence** Fabio Akcelrud

Durão, Fabio Durão, 2008 Modernism and Coherence is an attempt to develop a negative aesthetics conceived as determinate resistance of artworks against the meaning assigned to them by criticism From the accumulation of arguments on great texts of modernism the book describes gestures of refusal that generate figures of negativity Adorno s Aesthetic Theory becomes a whirlpool revolving around a center refusing predication Wallace Stevens poetry exhibits a phonetic escape valve against the pressure of reality Robert Frost writes a poem that is ahead of you in both senses of the expression and James Joyce s Ulysses

reads its readers in waves of self folding This book is an effort to salvage literature as something in itself in a world that increasingly can only see what is for the other

The Theory Mess Herman Rapaport, 2001-01-10 Although deconstruction has become a popular catchword as an intellectual movement it has never entirely caught on within the university For some in the academy deconstruction and Jacques Derrida in particular are responsible for the demise of accountability in the study of literature Countering these facile dismissals of Derrida and deconstruction Herman Rapaport explores the incoherence that has plagued critical theory since the 1960s and the resulting legitimacy crisis in the humanities Against the backdrop of a rich informed discussion of Derrida's writings and how they have been misconstrued by critics and admirers alike The Theory Mess investigates the vicissitudes of Anglo American criticism over the past thirty years and proposes some possibilities for reform

Chall, 2001 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers Theatre of Catastrophe Karoline Gritzner, David Ian Rabey, 2006 Fifteen varied essays discuss the style language and vision of Howard Barker one of Britain's most influential and controversial playwrights An international range of academics offers illuminating interpretations of his work Includes analyses of the political moral and historical aspects of his writing its poetry and eroticism its depiction of the figure of the artist and Barker's writing in performance **Realism After Modernism** Devin Fore, 2012 The human figure made a spectacular return in visual art and literature in the 1920s Following modernism's withdrawal nonobjective painting gave way to realistic depictions of the body and experimental literary techniques were abandoned for novels with powerfully individuated characters But the celebrated return of the human in the interwar years was not as straightforward as it may seem In *Realism after Modernism* Devin Fore challenges the widely accepted view that this period represented a return to traditional realist representation and its humanist postulates Interwar realism he argues did not reinstate its nineteenth century predecessor but invoked realism as a strategy of mimicry that anticipates postmodernist pastiche Through close readings of a series of works by German artists and writers of the period Fore investigates five artistic devices that were central to interwar realism He analyzes Bauhaus polymath L. szl Moholy Nagy's use of linear perspective three industrial novels riven by the conflict between the temporality of capital and that of labor Brecht's socialist realist plays which explore new dramaturgical principles for depicting a collective subject a memoir by Carl Einstein that oscillates between recollection and self-erasure and the idiom of physiognomy in the photomontages of John Heartfield Fore's readings reveal that each of these rehumanized works in fact calls into question the very categories of the human upon which realist figuration is based Paradoxically even as the human seemed to make a triumphal return in the

culture of the interwar period the definition of the human and the integrity of the body were becoming more tenuous than ever before Interwar realism did not hearken back to earlier artistic modes but posited new and unfamiliar syntaxes of aesthetic encounter revealing the emergence of a human subject quite unlike anything that had come before *IRASM*, 2004 *The Rhetoric of Transparency in the New Berlin* Eric Jarosinski, 2005 **Critical Theory: Subjectivity, ethics and politics** David M.
