A. Bourgeois,2005-08-31 Many centuries ago an Evil King took his pleasure in conquering and subjugating his neighbors When there was none left to enslave he grew bored Then to his great pleasure the Krill a people powerful in magic paid him a visit He went to great lengths to befriend the Krill who knew the magic of moving to the lands beyond the lights in the night sky The Krill were brilliant but they were gullible In time the Evil King stole the magic of the Krill and used it for his pleasure His armies ravaged many new lands New lands by the score were crushed under his boot At the zenith of his power the Evil King was betrayed by eight of his most trusted generals With the aid of the Krill they had marooned him and his bodyguard in a cold savage land They underestimated him Four centuries later he ruled this land of fearsome beasts under a blue sun He learned patience A thousand years later the Krill never a race to leave any loose ends checked to make sure he was dead He was waiting The Krill were the first to feel his wrath General Carnith was the next of his betrayers the Evil King found The fool hadn t even run General Carnith had allied himself with the old ones The Evil King s dark armies had driven them from land to land for centuries without number He found others Two of his betrayers were killed two he captured They now wished that they were dead The remaining four Generals including Carnith vanished without a trace For many many centuries he searched for his four remaining traitors His anger never abated as he searched patiently from his high mountain fortress Finally after many long centuries he found them All four enemies were in one land General Carnith was there with what was left of the old ones General Lom with his Lombark allies General Tyre with his humans General Aquanus was there with the ones that lived in the sea He attacked at once The Evil King flooded his minions into this new land To his surprise they were ready for him They slaughtered most of his army and chased the few that survived into hiding He barely escaped back to his

high mountain fortress Grievously wounded and barely alive he returned to his throne of skulls For centuries he tended his wounds and planned his next assault He raised an army larger and better than before The Evil King was no fool he wouldn't repeat the same mistake twice A direct assault was out of the question If metal is too hard to break then soften it first The Evil King quietly sent hundreds of his most clever servants into this hard land to sow mischief and turmoil The Evil King waited a long time for his evil seeds to grow and mature The time was almost right to strike again This is the story of Galen Hunted even before he was born Befriended by the Elves Protected by Good Wizards Guided by an Elvin Queen with the gift of seeing the future His future and the future of his posterity are entangled with the Evil King's Galen's choices are to either die under the Evil King's boot or to face one of the most powerful evil creatures that ever existed in single combat and defeat him if he survives that long
