Lockhart,2013-08-21 Jewish writing has only recently begun to be recognized as a major cultural phenomenon in Latin American literature Nevertheless the majority of students and even Latin American literary specialists remain uninformed about this significant body of writing This Dictionary is the first comprehensive bibliographical and critical source book on Latin American Jewish literature It represents the research efforts of 50 scholars from the United States Latin America and Israel who are dedicated to the advancement of Latin American Jewish studies An introduction by the editor is followed by entries on 118 authors that provide both biographical information and a critical summary of works Argentina Brazil and Mexico home to the largest Jewish communities in Latin America are the countries with the greatest representation but there are essays on writers from Venezuela Chile Uruguay Peru Colombia Costa Rica and Cuba Narrative Irony in the Contemporary Spanish-American Novel Jonathan Tittler,2019-06-30 As a narrative device irony in the Latin American novel has been treated before in a rather fragmented non systematic way It needed a cohesive study based on close textual examination of several major novels Professor Tittler has done just that and done it well This book is the best and most comprehensive study of the ironic mode that we have Myron I Lichtblau Department of Foreign Languages and Literatures Syracuse University In this book Jonathan Tittler explores some of the many possibilities that the concept of irony holds for literary criticism Identifying irony as a characteristic property of Spanish American fiction Tittler offers close readings of seven important novels Carlos Fuentes The Death of Artemio Cruz Juan Rulfo s Pedro Paramo Manuel Puig s Betrayed by Rita Hayworth Guillermo Cabrera Infante s Three Trapped Tigers Mario Vargas Llosa s Aunt Julia and the Scriptwriter Julio Cortazar s A Manual for Manuel and Isaac Goldemberg s The Fragmented Life of Don Jacobo Lerner Tittler begins with a comprehensive review of existing theories of irony in all of which the concept of narrative distance plays a major role Next he proposes his own innovative model for critical reading made up of two basic forms of irony which he terms static and kinetic He then applies the model systematically to his readings of the texts four in the static mode and three in the kinetic linguistically self conscious mode Tittler concludes by reflecting on the relationship between irony and the novel asserting that in the light of actual events in Spanish America the novels themselves and the critical discourse in which they are evoked may be regarded as ironic phenomena Masterplots II.
