## **The Friendly Philosopher:**

Philosophers and Friends Dorothy Emmet, 2016-07-27 With a wealth of anecdote Dorothy Emmet looks back on the philosophers who made a personal impact on her. She brings to life the Oxford of the 1920s and writes particularly about H A Pritchard and R G Collingwood. She knew A N Whitehead and Samuel Alexander and remembers philosophers who struggled with political dilemmas when a number of intellectuals were turning to Marxism. Describing the post war period she recalls R B Braithwaite, Michael Polanyi, Alasdair MacIntyre and others. Her personal portraits will interest a wide readership as well as making essential reading for professional philosophers. *Alciphron: or, The minute philosopher.* 1732. *Siris.* 1744 George Berkeley, 1871

**Naturalism and Social Philosophy** Martin Hartmann, Arvi Särkelä, 2023-01-30 Can societies fall ill? Can institutions die or social practices degenerate? Must social norms be embodied? To what extent is social action habitual? Is social life part of nature or does it transcend it? This book explores the meaning and many facets of naturalism in social philosophy. It investigates the consequences of concepts such as second nature and forms of life for social philosophy. It analyses the ways in which social action, gender, work and morality are embodied. It surveys the conceptions of nature at play in social criticism. It provides students and experts of social philosophy with both an overview and critical analyses of the many facets of naturalism in social philosophy from Hegel to contemporary critical theory. Contributors: Louis Carr, Fabian Freyenhagen, Martin Hartmann, Axel Honneth, Thomas Khurana, Steven Levine, Sabina Lovibond, Arvi Särkelä, Barbara Stiegler, Mariana Teixeira, Italo Testa. **The Oxford Handbook of Philosophy of Social Science** Harold Kincaid, 2012-08-23 The philosophy of the social sciences considers the underlying explanatory powers of the social or human sciences such as history, economics, anthropology, politics and sociology. The type of questions covered includes the methodological, the nature of observations, laws, theories and explanations, to the ontological: whether or not these sciences can explain human nature in a way consistent with common sense beliefs. This Handbook is a major comprehensive look at the key ideas in the field, is guided by several principles. The first is that the philosophy of social science should be closely connected to and informed by developments in the sciences themselves. The second is that the volume should appeal to practicing social scientists as well as philosophers, with the contributors being both drawn from both ranks and speaking to ongoing controversial issues in the field. Finally, the volume promotes connections across the social sciences with greater internal discussion and interaction across disciplinary boundaries. **The SAGE Handbook of the Philosophy of Social Sciences** Ian C Jarvie, Jesus Zamora-Bonilla, 2011-02-17

What is the relationship between the social sciences and the natural sciences? Where do today's dominant approaches to doing social science come from? What are the main fissures and debates in contemporary social scientific thought? How are we to make sense of seemingly contrasting approaches to how social scientists find out about the world and justify their claims to have knowledge of it? In this exciting handbook Ian Jarvie and Jesus Zamora Bonilla have put together a wide ranging and

authoritative overview of the main philosophical currents and traditions at work in the social sciences today Starting with the history of social scientific thought this handbook sets out to explore that core fundamentals of social science practice from issues of ontology and epistemology to issues of practical method Along the way it investigates such notions as paradigm empiricism postmodernism naturalism language agency power culture and causality Bringing together in one volume leading authorities in the field from around the world this book will be a must have for any serious scholar or student of the social sciences
