Alan T. Davies, 1979 No one would disagree with the assessment that Christians over the centuries have been guilty of antisemitism sometimes with barbarous results The real question is not whether individual Christians have been antisemites but whether antisemitism is somehow ingrained in the very roots of Christianity in its very essence Rosemary Ruether has declared that antisemitism is the other side of Christology the inevitable fallout of placing Jesus at the right hand of the Father The contributors to this volume consider that larger question from several vantage points their findings are vitally important for Christians and Jews alike Not only do they explore the beginnings of Christian antisemitism they help us understand the dynamics of the religious impulse for all peoples and all times Publisher

Matowanyika, 1998    **The Foundations of Character** Alexander Faulkner Shand, 1914 A scientific treatment should not diminish but increase the general interest taken in character To bring together the various aspects of the subject which in literature are treated in isolation from one another to lead up to a general conception of it to study the methods by which the knowledge of it may be increased in accuracy and extent these are to make approaches to a scientific treatment of character

While I have had chiefly to confine myself to a study of the tendencies of the emotions and sentiments this has been throughout my aim This book then is a study of method Yet I do not claim that this method is essentially new It is in the main the hypothetical method of the sciences it has had to be adapted to the treatment of character that is all A complete science of mind would include a science of character The best approach to such a science is through the study of the primary emotions and their connected instincts This study is to be directed to an analysis of tendencies PsycINFO Database Record c 2005 APA all rights reserved
