The Fourth World:

Book of the Fourth World Gordon Brotherston, 1995-11-24 The Book of the Fourth World offers detailed analyses of texts that range far back into the centuries of civilised life from what is now Latin and Anglo America At the time of its discovery the American continent was identified as the Fourth World of our planet In the course of just a few centuries its original inhabitants though settled there for millennia and countable in many millions have come to be perceived as a marginal if not entirely dispensable factor in the continent's destiny Today the term has been taken up again by its native peoples to describe their own world both its threatened present condition and its political history which stretches back thousands of years before Columbus In order to explore the literature of this world Brotherston uses primary sources that have traditionally been ignored because they have not conformed to Western definitions of oral and written literature such as the scrolls of the Algonkin the knotted strings Quipus of the Inca Navajo dry paintings and the encyclopedic pages of Meso America's screenfold books The Universal Kabbalah Leonora Leet, 2004-09-29 This landmark work by an innovative modern Kabbalist develops a scientific model for kabbalistic cosmology and soul psychology Derived from the kabbalistic diagram of the Tree of Life and the author's own Sabbath Star diagram this universal model encodes the laws of all cosmic manifestation giving a mathematical basis to many aspects of this mystical tradition and providing a new synthesis of science and spirituality that may well write a new chapter to the Kabbalah International Environmental Law and the Global South Shawkat Alam, Sumudu Atapattu, Carmen G.
