*Economization of Education* Joel Spring, 2015-03-27 In this timely cogent analysis of trends and powerful forces shaping global educational policy today Joel Spring focuses on how economization is making economic growth and increased productivity the main goals of schools and the ways these goals are achieved including measuring educational policies by their costs and economic benefits shaping family life to ensure productive workers and high achieving students introducing entrepreneurship education into curricula from preschool through higher education and increasing the involvement of economists in educational policy analysis Close attention is given to the Organization for Economic Cooperation and Development OECD the World Bank the World Economic Forum and multinational corporations which as advocates of economization want schools to focus on teaching hard and soft skills needed by the global labor market Economization raises questions about the effects of economically driven agendas for schools Will education policies advocated by global organizations and multinational businesses corporatize and standardize human personalities and families What type of global worker is being sought by global organizations and multinational corporations What education programs are supported to educate the ideal global worker What is the ideal family life for economic growth and development Detailing and analyzing the politics and motivations driving economization the book concludes with an assessment of the impacts of the confluence of business interests economic theories governments and educators

**The United Nations and Education** David Coleman, Phillip W. Jones, 2004-11-10 The UN is often questioned about its ongoing relevance and overall effectiveness in the 21st century particularly in its involvement with educational policy and co operation around the globe This ground breaking book examines the four key agencies within the UN system that share the vital role of addressing educational futures UNESCO the World Bank UNICEF and UNDP As the core of educational multilateralism these agencies powerfully reflect the UN s historic grounding in peace human rights and economic development The history of each agency s commitment to education is explored with critical detachment with particular attention paid to the post Cold War period during which each agency has needed to re think the impact of globalisation on both its modes of operation as well as the content of its education policies Just as education policy itself has been subject to the impact of globalisation so to has each agency had to adapt at a time when not only education but also their own mandates have been thrown open to question This timely book will be essential reading for all those working with and for UN agencies foreign aid workers and the development co operation industry At a time when education policies budgets and strategies appear wide open to profound changes this book will provide a much needed roadmap to the future

**Trends in Private Sector Development in World Bank Education Projects** Shobhana Sosale, 2000 The principle underlying trends in Bank education projects is that strengthening the private sector s role in noncompulsory education over time will release public resources for the compulsory primary level The public and private sectors have complementary roles to play

*Non-Formal Education* Alan Rogers, 2005-04-04 This is the first full

study of non formal education on an international scale since the 1980s The book describes the emergence of the concept in the context of development and educational reform It traces the debate about non formal education from its origins in 1968 to the mid 1980s and looks at the issues that this debate raised It then describes a number of programmes in different parts of the world which call themselves non formal pointing out the wide range of different views about what is and what is not non formal Rogers asks whether we should drop the term altogether or try to reconceptualise it in terms of flexible schooling or participatory education This is an important new book by a well established author It deals with complex issues but is written in a clear style It contains an important new analysis of the development paradigms in which the controversies surrounding non formal education grew up and which shaped its purpose and impacts The author s call for a reformulation of the concept will find echoes not only in developing societies but also in Western circles where the language of non formal education is being used increasingly within the context of lifelong learning The book grew out of the teaching of non formal education in which Professor Rogers has been engaged for the last 20 years It is intended for teachers and students in comparative education courses in higher education institutions and for researchers and others with an interest in the field

*Handbook of Global Education Policy* Karen Mundy, Andy Green, Bob Lingard, Antoni Verger, 2016-02-24 This innovative new handbook offers a comprehensive overview of the ways in which domestic education policy is framed and influenced by global institutions and actors Surveys current debates about the role of education in a global polity highlights key transnational policy actors accessibly introduces research methodologies and outlines global agendas for education reform Includes contributions from an international cast of established and emerging scholars at the forefront of the field thoughtfully edited and organized by a team of world renowned global education policy experts Each section features a thorough introduction designed to facilitate readers understanding of the subsequent material and highlight links to interdisciplinary global policy scholarship Written in an accessible and engaging style that will appeal to domestic and international policy practitioners social scientists and education scholars alike
