Domestic Discipline Wolfram Steffen, 2025-09-24

Domestic Discipline is a relatively new movement and yet it is based on age old principles and behaviors A fundamental insight is that men and women are anything but the same Quite the opposite even the brain structures look completely different and as any unbiased observer knows a woman thinks feels and perceives completely differently to a man Nature intended it that way and several thousand years of human history are proof of this No ideologically motivated gender scientist will be able to change this Domestic discipline makes the man the leader the decision maker and somehow also the ruler over the woman This has nothing to do with chauvinism It is simply biology Men have ruled over women since the cave age They have determined history while women have remained a marginal phenomenon They simply have the genetic prerequisites for their leadership role no matter how the emancipists see it This book defines the philosophy behind the Domestic Discipline movement It shows what it stands for and what it is not And it uses numerous detailed real life stories to illustrate the role of disciplining women Because that s exactly what it s about the dominance of men over women that is dictated by nature About his right to decide and determine to punish and dominate A right of strength that has proven itself for thousands of years and which even a few green and red dream dancers will not change *Golden Straw in my Hair*
