## **Honey Ant:**

**Ant** Charlotte Sleigh,2004-04-04 Ants are legion at present there are 11 006 species of ant known they live everywhere in the world except the polar icecaps and the combined weight of the ant population has been estimated to make up half the mass of all insects alive today When we encounter them outdoors ants fascinate us discovered in our kitchen cupboards they elicit horror and disgust Charlotte Sleigh s Ant elucidates the cultural reasons behind our varied reactions to these extraordinary insects and considers the variety of responses that humans have expressed at different times and in different places to their intricate miniature societies Ants have figured as fantasy miniature armies as models of good behavior as infiltrating communists and as creatures on the borderline between the realms of the organic and the machine in 1977 British Telecom hired ant experts to help solve problems with their massive information network This is the first book to examine ants in these and many other such guises and in so doing opens up broader issues about the history of science and humans relations with the natural world It will be of interest to anyone who likes natural history or cultural studies or who has ever rushed out and bought a can of RaidTM Charlotte Sleigh s stylish engaging and informative study deserves to win new members for the ant fan club Jonathan Bate The Times
