## **Suddenly Single:**

The Panic Years Nell Frizzell, 2021-02-11 As informative as it is poetic Dolly Alderton Compassionate funny and beautifully written Daisy Buchanan Every woman will experience the panic years in some way between her mid twenties and early forties This maddening period of transformation and personal crisis is recognisable by the myriad of decisions we make about partners holidays jobs homes savings friendships all of which are impacted by the urgency of the single decision that comes with a biological deadline the one decision that is impossible to take back whether or not to have a baby But how to stay sane in such a maddening time How to know who you are and what you might want from life How to know if you re making the right decisions Raw hilarious and beguilingly honest Nell Frizzell s account of her panic years is both an arm around the shoulder and a campaign to start a conversation This affects us all women men mothers children partners friends colleagues so it s time we started talking about it with a little more candour WHAT READERS ARE SAYING Loved this book Highly recommend for any woman or man during the weird time in your 20s Those panicky feelings of being a 24 30 something put into words This book brings forth a sigh of relief Excellent book that really taps into what so many of us are thinking and feeling but not saying
