## **The Koran Translated Into English From The Original Arabic:**

The Koran: ... Translated Into English ... By G. Sale. Fifth Edition, with a Memoir of the Translator by R. A. Davenport , and with Various Readings and Illustrative Notes from Savary's Version of the Koran ,1876      The Koran The Koran,1734

**Catalogue of Arabic Manuscripts in the Library of the University of Leiden and Other Collections in the Netherlands, Volume 1 Fascicule 1** Witkam,1983-12      *A Topical Guide to the Koran & Sharia Law* Robert

Maddock,2020-03-23 This book is based on the 1734 Translation of the Koran by George Sale This translation is in King James English making comparisons between it and the King James Bible easy This is a topical guide that will take a word or short phrase and find it in every verse of the Koran where it appears These verses are placed together so that the reader can readily determine the context and therefore the meaning of the word or phrase In some instances such as the word jihad which does not appear in the Sale translation it is traced in the University of Michigan s online translation of the Koran There it appears thirteen times but in only two does it mean an internal struggle In the other eleven it means warfare When analyzing words and phrases in the Koran it is important to know when they were received and written It is also important to know that the Koran includes material that seems to come from other sources This has been outlined in Volume 2 of the 1300 Years War As noted in Volume 1 of the 1300 Years War Muhammad PBUH has been thought by many for over 150 years to have suffered from temporal lobe epilepsy associated with visual and auditory hallucinations These seizures last less than three minutes It is therefore important to know which suras might have come from a single episode A table shows this in Volume 1 table VIII Many scholars divide the Koran into four major periods Early Mecca 610 615 AD Mid Mecca 616 AD Late Mecca 617 621 AD and Medina 622 632 AD The analysis of the verses in these periods found that militancy against non Muslims progresses 7 7 percent of the verses from Early Mecca are militant This rises to 10 6 percent in the Mid Mecca Period and 18 3 percent in the Late Mecca Period It tops out at 29 3 percent in the Medina Period The colored version of the topical guide shows these periods in black blue green and red In the black and white edition it shows these four periods of the Koran in plain italics boldface italics regular plain type and boldface regular type The reason this division is important is the doctrine of abrogation 2 106 given early in the Medina period This states that verses given later may nullify verses given earlier Thus many peaceful verses given in the early parts of the Koran may be nullified by the verse of the sword 9 5 given later toward the end of the Prophet s life Slay the idolaters wherever you find them So far as I have been able to determine there has been no stylistic analysis of the Koran A person studying the Koran or the history of Islam will find this work most valuable      The Oxford Guide to Literature in English Translation Peter France,2000 Translation has been a crucial process in world culture over the past two millennia and more In the English speaking cultures many of the most important texts are translations from Homer to Beckett the Bible to Freud Although recent years have seen a boom in translation studies there has been no comprehensive yet convenient guide to this essential element of literature in English Written by eminent

scholars from many countries the Oxford Guide to Literature in English Translation meets this need and will be essential reading for all students of English and comparative literature It highlights the place of translation in our culture encouraging awareness of the issues raised making the translator more visible Concentrating on major writers and works it covers translations out of many languages from Greek to Korean from Swahili to Russian For some works e g Virgil s Aeneid which have been much translated the discussion is historical and critical showing how translation has evolved over the centuries and bringing out the differences between versions Elsewhere with less familiar literatures the Guide examines the extent to which translation has done justice to the range of work available The Guide is divided into two parts Part I contains substantial essays on theoretical questions a pioneering outline of the history of translation into English and discussions of the problems raised by specific types of text e g poetry oral literature The second much longer part consists of entries grouped by language of origin some are devoted to individual texts e g the Thousand and One Nights or writers e g Ibsen Proust but the majority offer a critical overview of a genre e g Chinese poetry Spanish Golden Age drama or of a national literature e g Hungarian Scottish Gaelic There is a selective bibliography for each entry and an index of authors and translators
