**Thus I Lived with Words** Annette Federico, 2017-11-15 Robert Louis Stevenson 1850-1894 loved more than anything to talk about the craft of writing and the pleasure of reading good books His dedication to the creative impulse manifests itself in the extraordinary amount of work he produced in virtually every literary genre fiction poetry travel writing and essays in a short and peripatetic life His letters especially confess his elation at the richness of words and the companionship of books often projected against ill health and the shadow of his own mortality Stevenson belonged to a newly commercial literary world an era of mass readership marketing and celebrity He had plenty of practical advice for writers who wanted to enter the profession study the best authors aim for simplicity strike a keynote work on your style He also held that a writer should adhere to the truth and utter only what seems sincere to his or her heart and experience of the world Writers have messages to deliver whether the work is a tale of Highland adventure a collection of children's verse or an essay on umbrellas Stevenson believed that an author could do no better than to find the appetite for joy the secret place of delight that is the hidden nucleus of most people's lives His remarks on how to write on style and method and on pleasure and moral purpose contain everything in literature and life that he cared most about adventuring persisting finding out who you are and learning to embrace the romance of destiny

**Between Generations** Victoria Ford Smith, 2017-08-07 Winner of the Children's Literature Association's 2019 Book Award Between Generations is a multidisciplinary volume that reframes children as powerful forces in the production of their own literature and culture by uncovering a tradition of creative collaborative partnerships between adults and children in nineteenth and early twentieth century England The intergenerational collaborations documented here provide the foundations for some of the most popular Victorian literature for children from Margaret Gatty's Aunt Judy's Tales to Robert Louis Stevenson's Treasure Island

Examining the publication histories of both canonical and lesser known Golden Age texts reveals that children collaborated with adult authors as active listeners coauthors critics illustrators and even small scale publishers These literary collaborations were part of a growing interest in child agency evident in cultural social and scientific discourses of the time Between Generations puts these creative partnerships in conversation with collaborations in other fields including child study educational policy library history and toy culture Taken together these collaborations illuminate how Victorians used new critical approaches to childhood to theorize young people as viable social actors Smith's work not only recognizes Victorian children as literary collaborators but also interrogates how those creative partnerships reflect and influence adult child relationships in the world beyond books Between Generations breaks the critical impasse that understands children's literature and children themselves as products of adult desire and revises common constructions of childhood that frequently and often errantly resign the young to passivity or powerlessness
