The Larks:

Flying With the Larks Timothy C. Brown, 2013-02-01 In 1903 the Wright Brothers achieved their dream of powered flight and from then on man's domination of the skies became a reality The military potential of aircraft was obvious from the outset first as a way of spying on the enemy with reconnaissance planes and balloons armed with early cameras and then as a way of taking the battle into the skies as planes became weapons of war In Britain these early days of military aviation were pioneered by a group of enthusiastic civilians and military men who were based at Lark Hill Wiltshire where the rolling plains became ideal flying grounds Here the first military aviation base came into existence Flying with the Larks charts its early days and its influence on First World War aviation
